DECLARATION OF CONFORMITY

Per FCC CFR 47 Part 2 Section 2.1077(a)

Responsible Party Name: Motorola, Inc.

Address: 8000 West Sunrise Boulevard, Plantation, FL 33328 USA

Phone Number: 1 (800) 453-0920

Hereby declares that the product:

Product Names: **i85s and i50sx and i55sr**

Model Number: **H40XAH6RR1BN**

Conforms to the following regulations:

FCC Part 15, subpart B

Class B Digital Device

Date: Sep. 19, 2001

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Introduction

Welcome to Boost Mobile

Welcome to Boost Mobile - wireless for a new generation.

With Boost Mobile pre-paid, there's no need to worry about credit checks or chalking up huge monthly bills, because quite simply, there aren't any. By paying for your phone calls up front, you'll keep your monthly costs under control and get all the mobile freedom you really want.

And Boost Mobile has got the latest Motorola handsets with the coolest features, like Boost 2WAY; our digital two-way radio feature, Boost Wireless Web and the hottest Java games. Plus, you get instant access to Nextel's world-class digital iDEN® network.

Boost Customer Care

You can contact Boost Customer Care 7 days a week simply by dialing 611 from your *i55sr* phone, or by calling 1-888-BOOST-4U (1-888-266-7848). Our Boost Customer Care team will assist you in answering all your questions. Or, visit boostmobile.com for a variety of Boost Customer Care services online.

Getting Started

This section will help you get started using your phone. It contains details about some of the features and functions described in the *Getting Started Guide*.

This section includes:

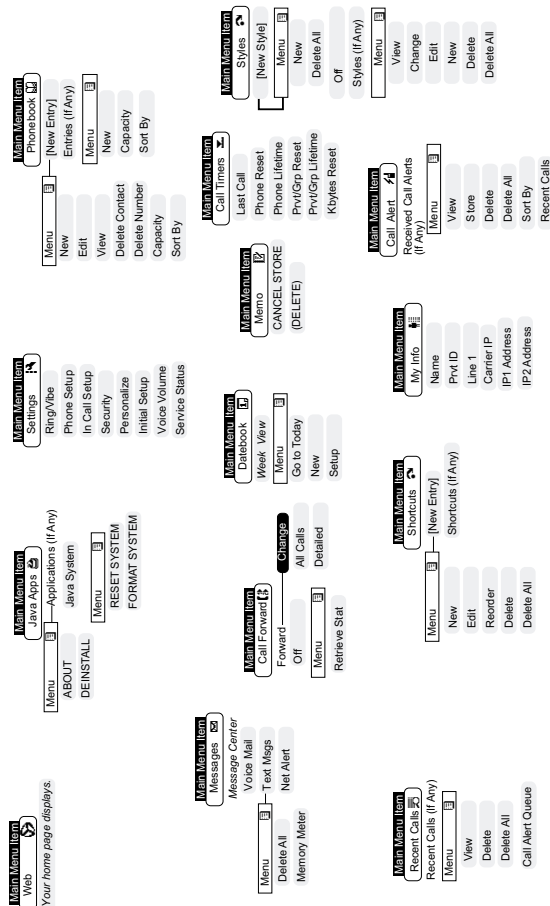

i55sr Phone Features	Page 4
i55sr Phone Menu Tree	Page 5
i55sr Phone Icon Glossary	Page 6
Battery	Page 7
Turning Your i55sr Phone On/Off	Page 9

Using T9® Text Input	Page 20

i55sr Phone Features

i55sr Phone Menu Tree

You can access the main menu options by pressing  from the idle screen. Use  to navigate through the menus and submenus. Press  under the display option to perform the desired phone functions.

i55sr Phone Icon Glossary

You may see these icons while using your i55sr phone:

The icon of the main menu feature in use displays in the top left of the status icon rows. For a list of the main menu options, see “Main Menu Options” on page 32.

Battery

Your *i55sr* phone comes with a Lithium Ion battery and charger. Remove the battery from the protective plastic safety tray provided in the original packaging. After attaching the battery, make sure you charge it, before you use your phone for the first time. See “Batteries” on page 137 for the charging times for your phone’s battery. The first time you charge your phone’s battery, charge for 30 minutes more than the time shown on page 137. After the initial charging, the battery can be charged in the time shown on page 137.

NOTE: Use only batteries approved for this product.

Attaching the Battery

- 1 Remove the battery cover located on the back of the phone by pressing the battery cover release button and sliding the battery cover away from the antenna.

- 2 Insert the top of the battery into the battery area. Press down on the bottom of the battery to secure it.

- 3 Replace the battery cover and push forward until you hear a click.

Detaching the Battery

- 1 Ensure that the phone is powered off before attempting to detach the battery. See “Turning Your i55sr Phone On/Off” on page 9.
- 2 Press the battery cover release button and slide the battery cover away from the antenna.
- 3 Remove the battery by pushing the battery toward the antenna and lifting it out of the phone.

Charging the Battery

- 1 With your phone's keypad facing up, plug the charger's connector into the left side of the accessory connector on the bottom of the phone.

NOTE: To reduce damage to the phone's bottom connector, the charger's cable or accessory button, the charger accessory button should always be used.

Charger Accessory Button

- 2 If the charger has folding electrical prongs, flip open the prongs.
- 3 Plug the charger into an electrical outlet.

Battery Charging Status

The battery strength indicator icon found on your phone's display screen shows the amount of power in the battery.

When Using Phone

Icon Display	a	b	c	d
Battery Strength	Low Battery	11% to 40%	41% to 70%	Fully Charged

When Charging Battery

Icon Display	e	f	g	d
	1 flashing bar	1 flashing bar, 1 continuous bar	1 flashing bar, 2 continuous bars	3 continuous bars
Battery Strength	Low Battery	31% to 60%	61% to 90%	Fully Charged

A short, chirp-like sound indicates a low battery. This indicates that you have approximately five minutes of talk time remaining.

For best results, charge the batteries within the temperature range of 50°F to 104°F (10°C to 40°C).

The battery can be charged with the phone either turned on or off. For best results, charge it with the phone turned off.

Turning Your i55sr Phone On/Off

NOTE: To register for the first time on the Nextel National Network, you must turn on your i55sr phone in your local calling area.

To power the phone on:

- 1 For optimal signal strength, extend the antenna.

- 2 Press and hold  at the top of the phone until the status light glows red and **Powering On** displays.

- 3 As your *i55sr* phone connects to the Nextel National Network, you will see the Boost Mobile icon and a connecting message.

When the idle screen displays with **Boost**, you are ready to use your *i55sr* phone!

If your display reads **No Service** or doesn't change to the idle screen when you turn on your phone, and you know you are in a Boost Mobile coverage area, contact Boost Customer Care. For details on Boost Mobile coverage areas, go to boostmobile.com.

To power the phone off:

- 1 Press and hold  on the top of the phone until you see the message **Powering Off**.

- 2 Push down the antenna.

Enabling Security

It is a good idea to enable security the first time you power on your phone or within 20 days of the first activation of your phone.

- 1 Turn your phone on (see "Turning Your i55sr Phone On/Off" on page 9 of this guide).

- 2 From the idle screen, press .

- 3 Press  to scroll to **Web**.

- 4 Press  under **SELECT**. A series of screens will display.

- 5 You are prompted to enable security. Press  under **Yes**.

- 6 Press  to return to the idle screen.

The SIM Card

Your *i55sr* phone comes with a built-in level of security protection through the use of the SIM (Subscriber Identity Module) card, which you should have already inserted into your new *i55sr* phone. The SIM card stores all your Phonebook information and your Boost Mobile account identification information. Since this information is stored on the SIM card, not in your phone itself, you can remove the information by removing the SIM card.

The SIM card is located in the SIM Card Holder on the back of the phone, underneath the battery. You can verify that the SIM card is in place by removing the battery and viewing the SIM card through the SIM card cover.

See “Inserting/Removing the SIM Card” on page 14 for information on locating the SIM card.

NOTE: Except for making emergency calls, your phone will not function without the SIM card.

SIM Card Personal Identification Number (PIN)

To prevent unauthorized use of your account, you can protect your SIM card by enabling the SIM PIN security feature. With the SIM PIN enabled, you must enter your PIN each time the phone is powered on. You can change or disable your PIN if desired.

NOTE: It is recommended that you enable the SIM PIN security feature to prevent fraudulent use of the SIM card, your *i55sr* phone, and your account.

Enabling/Disabling the PIN Security Feature

Once the PIN security feature is enabled, you are prompted to enter your PIN each time you turn on your phone. Until a valid PIN is entered, you can use the phone only to make emergency calls.

After the PIN is accepted, the phone registers on the network and the idle screen displays.

When the PIN security feature is disabled, the phone can be used without entering a PIN.

IMPORTANT: It is recommended that you enable the PIN security feature to protect personal data on your SIM card. This prevents anyone from using your phone and accessing your personal data.

To enable SIM PIN security

1	At the idle screen, press  and then press  to scroll to Settings .
2	Press  under SELECT . The Settings screen displays.
3	Press  to scroll to Security . Press  under SELECT to access the Security screen.
4	At the Security screen, press  to scroll to SIM PIN . Press  under SELECT to access the SIM PIN screen.
5	Press  to scroll to On or Off . On enables the SIM PIN security feature; Off disables the SIM PIN security feature. Press  under SELECT .
6	At the Verify SIM PIN Code screen, enter the current SIM PIN and press  under OK .
NOTE: Your default SIM card PIN is 0000.	

Once you have enabled the SIM PIN security feature, it is recommended that you change your PIN to a 4- to 8-digit number known only to you (see “Changing the PIN” on page 13).

Entering the SIM PIN

NOTE: Incorrectly entering your PIN three times causes the SIM card to be blocked. To unblock your SIM card, you must contact Boost Customer Care. For more information, see “Unblocking the PIN” on page 13.	
1	From the Enter SIM PIN Code screen, enter your 4- to 8-digit PIN. An asterisk appears for each character entered. The default SIM PIN is 0000.
NOTE: Other than emergency dialing, you will be unable to use any of the phone functions, including receiving phone calls, until you enter the PIN.	
2	Press  under OK .

If you enter an incorrect PIN, the message “**SIM PIN incorrect: Try again**” appears on your phone’s screen. After three consecutive incorrect attempts, the SIM card is blocked.

Once blocked, the phone will not allow you to enter your PIN again, even after powering the phone off and back on. If this happens, see “Unlocking the PIN” on page 13.

Changing the PIN

<p>NOTE: In order to change the PIN, the SIM PIN security feature must be set to On. See “Enabling/Disabling the PIN Security Feature” on page 11.</p>	
1	From the idle screen, press  and then press  to scroll to Settings .
2	Press  under SELECT . The Settings screen displays.
3	Press  to scroll to Security . Press  under SELECT to access the Security screen.
4	At the Security screen, press  to scroll to New Passwords . Press  under SELECT to access the New Passwords screen.
5	At the New Passwords screen, press  to scroll to SIM PIN and press  under SELECT .
6	At the Enter Old SIM PIN Code screen, enter the current SIM PIN and press  under OK . NOTE: The default SIM PIN is 0000.
7	At the Enter New SIM PIN Code screen, enter a new 4- to 8-digit SIM PIN and press  under OK .
8	At the Re-enter New SIM PIN Code screen, re-enter the new SIM PIN to confirm, and press  under OK .

Unlocking the PIN

If you forget your PIN and unsuccessfully enter it three times, access to your phone will be blocked.

NOTE: Before you begin, obtain the PIN Unblocking Key (PUK) code from Boost Customer Care, then read and understand the PIN unblocking sequence. When entering the key press sequence, each key press must occur within 5 seconds of the prior key press.

To unblock the PIN:

IMPORTANT: If you unsuccessfully enter the PUK code ten times, the SIM card is permanently blocked and must be replaced. If this happens, all data will be lost. You will get a message to contact your service provider. Contact Boost Customer Care for assistance. If the SIM card is blocked, the i55sr phone only allows outgoing Emergency calls.

1 Press * * 0 * 5 * .

2 Enter the 8-digit PUK code.

3 Press .

4 Enter a new 4- to 8-digit SIM PIN and press .

5 Re-enter your SIM PIN and press .

If you entered the codes properly, the **SIM Unlocked** screen displays.

Inserting/Removing the SIM Card

IMPORTANT: If you remove your SIM card and insert another SIM card into your phone, some information does not display when you use the phone with the new SIM card. All Phonebook information remains stored on your original SIM card. The following information does not display:

- Datebook events
- Call filtering settings in Styles
- Call Forwarding settings
- Information stored in Memo
- Net Alert notifications
- Browser Bookmarks
- Recent Calls list

IMPORTANT: Do not touch the gold-colored areas of the SIM card. To avoid loss or damage, do not remove your SIM card from your phone unless absolutely necessary.

- 1** With the phone powered off, remove the battery cover and battery. See “Detaching the Battery” on page 8.

- 2** With the antenna facing away from you, and the back of the phone exposed and facing up, locate the SIM cover and gently push it forward.

- 3** Hold the SIM card with the gold contacts facing down and the clipped corner in the bottom left. Do not touch the gold-colored areas of the SIM card.

- 4** Carefully place the SIM card with the cut corner in the bottom left position into the phone, until it lies flat in the SIM card holder.

- 5** To remove the SIM card, very carefully lift it out of its holder. Do not touch the gold-colored areas of the SIM card.

NOTE: Protect the SIM card as you would any delicate object. When the SIM card is not in the phone, you should store it in something protective, such as an envelope.

Keypad Lock

The i55sr phone includes a Keypad Lock feature that enables you to quickly lock the phone's keypad to avoid inadvertently pressing keys or placing calls. Once Keypad Lock is activated, you can only perform the following tasks:

- turn your phone on and off
- unlock the keypad
- receive incoming calls, messages, and alerts

NOTE: Emergency calls cannot be placed while Keypad Lock is activated.

Before locking your phone's keypad, you may want to read this entire section to learn how to respond to incoming calls, messages, and alerts.

Activating Keypad Lock

From the idle screen, press  . The message **Keypad Locked** displays on your phone.

Whenever a key is pressed while in Keypad Lock mode, the unlock instructions display briefly.

When you receive an incoming call, message, or alert, Keypad Lock is temporarily disabled. You can respond to the incoming call, message or alert. When finished, press  until you return to the idle screen. Once you return to the idle screen, Keypad Lock will automatically reactivate.

Receiving Incoming Calls

When you receive an incoming phone call (see “Receiving a Phone Call” on page 55), Keypad Lock is temporarily disabled.

Press  under YES or press  to answer the call. When you end the call, the **Recent Calls** list appears. Press  or press  under EXIT to reactivate Keypad Lock and return to the idle screen.

Or,

Press  under NO or press  to send the call to Voice Mail and reactivate Keypad Lock.

Receiving Boost 2WAY Calls

When you receive an incoming Private Call or Call Alert (see “Boost 2WAY” on page 85), Keypad Lock is temporarily disabled.

- 1 Press and hold the Boost 2WAY PTT button on the side of the phone. Begin talking after the phone emits a chirping sound. Release the Boost 2WAY PTT button to listen.
- 2 When you end the call, the **Recent Calls** list appears. Press  or press  under EXIT to reactivate Keypad Lock and return to the idle screen.

Receiving New Voice Mail

When you receive new Voice Mail (see “Receiving Voice Mail Messages” on page 68), Keypad Lock is temporarily disabled.

When **New Voice Mail Message** displays, press  under EXIT to return to the idle screen and reactivate Keypad Lock.

Or,

Press  under CALL to access Voice Mail. Once you have finished, press  to exit Voice Mail. The **Recent Calls** list displays. Press  or press  under EXIT to reactivate Keypad Lock and return to the idle screen.

Receiving New Text Messages

When you receive new Text Messages (see “Numeric Messaging” on page 82), Keypad Lock is temporarily disabled.

When **New Text Message** displays, press  under EXIT to return to the idle screen and reactivate Keypad Lock.

Or,

Press  under READ to read the message. Press  under SAVE or DELETE. Once you have finished, press  or press  under EXIT to reactivate Keypad Lock return to the idle screen.

Receiving New Net Alerts

When you receive new Net Alerts, Keypad Lock is temporarily disabled.

When **New Browser Message** displays, press  under EXIT to return to the idle screen and reactivate Keypad Lock.

Or,

Press  under GOTO. Press  under View. Press  under OK or Reply. Once you have finished, press  until you return to the idle screen and reactivate Keypad Lock.

Deactivating Keypad Lock

From the idle screen, press  . The message **Keypad Unlocked** displays briefly.

Status of Your i55sr Phone

Your i55sr phone has a status light that displays around the  button. The status light indicates the status of your connection.

Status Light Indicator	i55sr Phone Status
Flashing Red	Signing on to the network. Please wait.
Solid Red	No service or out of coverage area. If you are in a coverage area, keep your phone on and it will attempt to connect to the network every two minutes. If the phone does not connect after 15 minutes, contact Boost Customer Care.

Status Light Indicator	i55sr Phone Status
Flashing Green	In service/Ready to use. NOTE: Boost 2WAY is only available in your home calling area.
Solid Green	In use.

My Information

You can select **My Info** from the main menu to display or edit the following:

- **Name** — Enter your name in this field.
- **Private ID** — Your Private ID is displayed in this field. Your Private ID is the number others use to contact you using Boost 2WAY.
- **Phone Number** — Your phone number is displayed in this field. Your phone number is automatically entered when you receive your first phone call.
- **IP Addresses** — These fields display the IP addresses you use to access the Internet with your phone.

Viewing/Editing My Information

1	From the idle screen, press  .
2	Press  to scroll to My Info . Press  under SELECT. The My Information screen displays.
3	Use  to scroll through the fields.
4	To edit the displayed information, press  under CHANGE. Edit information as desired.
5	Press  under OK to save the changes.
6	To return to the idle screen, press  under EXIT.

Using T9® Text Input

Your i55sr phone has embedded software, called T9® Text Input, that makes typing on a phone keypad much like typing on a computer keyboard: it eliminates the traditional “multi-tap” method of text entry. As you type, you press only one key per letter. T9 Text Input matches your keystrokes to words in its linguistic database of approximately 60,000 words and proper names. You may also store additional words you frequently use in your own user database, which is incorporated into the T9 database.

T9 Text Input is available when you are typing information into your phone (for example, in the Phonebook or Datebook) and while using Boost Wireless Web services.

T9 Text Input Entry Modes

Four text entry modes are available in T9 Text Input: Alpha, Word, Symbols, and Numeric. When you are using T9 Text Input, an icon in the top right corner of your phone’s display screen (next to the battery strength indicator icon) indicates the T9 Text Input entry mode you are using:

Icon*	T9 Entry Mode Name	Used For...
	Alpha	Standard “multi-tap” keypad text entry.
	Word	Entering words and punctuation with one key-press per character.
	Symbols	Entering punctuation and symbols such as “@” or “?”.
	Numeric	Entering keypad numbers.

* T9 icons do not display while you are using Boost Wireless Web services.

Choosing a Text Entry Mode on Boost Wireless Web

When you are using Boost Wireless Web services, T9 Text Input becomes available whenever you access a screen that requires you to enter text. The right display option on your phone's screen indicates your current T9 Text Input text entry mode:

- **ALPHA** and **alpha** for Alpha mode
- **WORD** or **word** for Word mode
- **SYM1**, **SYM2**, **SYM3**, or **SYM4** for Symbols mode
- **NUM** for Numeric mode

To change text entry modes, press  under text entry mode until the desired mode displays.

NOTE: The rest of the instructions for using T9 Text Input apply only to entering text in applications other than Boost Wireless Web applications (for example, Phonebook or Datebook).

Choosing a Text Entry Mode

You can select your text entry mode from a menu available whenever the phone displays a screen that requires you to enter text (for example, the **Name** screen or **Title** screen).

To choose a text entry mode:

- 1 From any screen that requires text input (except Memo), press  to access the **Entry Method** menu.

A check mark appears next to the current text entry mode. When you access a screen that requires text input, the default text entry mode is Alpha.

- 2 Press  to scroll to the desired T9 Text Input text entry mode.

- 3 Press  under SELECT.

The phone returns to the text entry screen. An icon displays indicating the active text entry mode.

NOTE: The Memo feature accepts only numeric input.

Choosing a Language

To change the language of the T9 Text Input database:

1	From any screen that requires text input, press  to access the Entry Method menu.
2	Press  to scroll to Languages .
3	Press  under SELECT.
4	Press  to scroll to the language you want T9 Text Input to use.
5	Press  under SELECT.

NOTE: This feature is not available when using T9 Text Input with Boost Wireless Web services.

Using Alpha Mode

To enter text (letters and numbers) while in Alpha text entry mode:

- Press any key on the alphanumeric keypad to enter the letters and numbers on that key. For example, to enter the letter Y, press  three times.
- Press and hold a key to capitalize a letter, or press  to capitalize the highlighted letter.
- Pause briefly to leave the currently displayed character in place and move on to the next place in the text entry field.
- Press  to create a space in the text entry field.
- Press  under DELETE to delete one character. Press and hold  under DELETE to delete an entire entry.

Using Word Mode

In Word mode, T9 Text Input analyzes the letters on the keypad button you press and arranges them to create words. As you type, T9 Text Input matches your keystrokes to words in its database and will display the most commonly used matching word.

Special Key Functions

Some of your phone's keys assume different functions while in T9 Text Input Word mode.

Backspace and Erase

Press  under DELETE once to backspace or to erase a single character. Press and hold  under DELETE to erase the entire text entry field.

Space

Press  once to accept a word and insert a space when entering text.

Next Word in Database

If the displayed word is not the word you want to enter, you can display other words. Press  to display more words in the database that match the keystroke sequence you entered.

Shift and Caps Lock

Press  to make the next letter typed uppercase (Shift), to make all subsequent letters types uppercase (Caps Lock), or to go back to lowercase letters.

These icons appear in the top row of your display screen:

-  for Shift to uppercase
-  for Caps Lock

When neither of these icons appear, letters typed are lowercase.

Punctuation

In Word mode, T9 Text Input uses Smart Punctuation to quickly apply basic rules of grammar to insert the correct punctuation within a word and at the end of a sentence.

- Press  to insert punctuation. One of eight basic punctuation symbols will be inserted (, , - ' @ : ? ;).
- Press  to change the inserted punctuation symbol to another of the eight basic punctuation symbols.
- Press  to accept the punctuation and continue typing.

NOTE: Additional punctuation symbols are available in Symbols mode.

Entering a Word

To enter a word using Word mode:

1	Choose Word as your text entry mode.
2	Type a word by using one key press per desired letter. For example, to type “test” press     .
	IMPORTANT: The displayed word may change as you type it. Do not try to correct the word as you go. Type to the end of the word before editing.
3	After you have finished typing the word, if the word that appears is not the desired word, press  to change the word on the display to the next most likely word in the database. Repeat until the desired word appears. If the desired word does not appear, you can add it to the database of words by deleting the displayed word and using the instructions in “Adding Words to the User Database” on page 24.

Adding Words to the User Database

To add words to the T9 database:

1	Change from Word text entry mode to Alpha text entry mode. (See “Choosing a Text Entry Mode” on page 21.)
2	Type the word using Alpha text entry mode.
3	Return to Word text entry mode.
4	Press  to add a space. The word you typed in Alpha text entry mode is now in the database.

NOTE: You cannot store alphanumeric combinations, such as Y2K.

Using Symbols Mode

To use Symbols text entry mode:

- | | |
|--|--|
| 1 | Choose Symbols as your text entry mode. |
| A row of 32 symbols appears along the bottom of your phone's display screen, just above the display options and menu icon. (Press  to view the complete row.) | |
| 2 | Press  to highlight the symbol you want to enter into the text entry field. |
| 3 | Press  under SELECT to enter the symbol. |

Using Numeric Mode

To use Numeric text entry mode, choose Numeric as your text entry mode and press the number buttons on your keypad to enter numbers.

Display Essentials

Your *i55sr* phone's display screen tells you what you need to know as you use your phone.

This section includes:

Display Screen	Page 27
Status Icons	Page 28
Text Display Area	Page 29
Call Information Icons	Page 30
Menu Icon	Page 30
Display Options	Page 30
Navigating Menus and Lists	Page 31
Main Menu Options	Page 32

Display Screen

Any time your phone is powered on, the display screen provides you with information and options.

Idle Screen

The Boost idle screen displays any time the phone is powered on, but not engaged in some activity.

The idle screen consists of elements common to many of the screens your phone displays:

- status and application icons
- text display area
- menu icon
- display options

The Boost idle screen displays Boost and any active styles (see “Styles” on page 125) and the time and date. You must start at the Boost idle screen to access many of your phone’s features and functions.

TIP: You can always access the Boost idle screen by pressing .

Status Icons

Status icons provide you with information about your phone and its functions. These icons are context sensitive; meaning, the icons that appear depend on the task you are performing. Status icons appear in the two rows at the top of the display screen. Some appear at all times. Others appear only when your phone is engaged in certain activities or when you have activated certain features.

Icon	Indicates...
	Battery Strength — remaining battery charge. More bars on the battery indicate a greater charge. See “Battery Charging Status” on page 9 for detailed information about battery strength icons.
	Signal Strength — strength of the network signal. More bars next to the antenna indicate a stronger signal. Four bars is the maximum signal.
	Active Line —  indicates Line 1 is active.
	Call Forward — phone is set to forward calls. See “Call Forwarding” on page 62.
	Phone In Use — phone is connected on an active call.
	Private In Use — number being called is a Private ID.
	Packet Data Ready — your phone is set up for Packet Data but has not been successfully Mobile IP registered.
	Packet Data Activity — phone is sending or receiving data.

	Mobile IP — your phone has successfully registered and is ready to use Nextel's iDEN Packet Data network.
	Secure Data — phone is accessing the Wireless Web using a secure connection.
	Text Message — you have one or more unread Text Messages or Net Alert messages.
	Voice Mail — you have one or more unheard Voice Mail messages.
	Speaker Off — phone's speaker is off.
	Ring/Vibe — you have customized the way in which the phone is set to notify you when you receive calls and other types of messages. See “Ring Style and Notification Type” on page 111.
	T9 Text Input — you are using T9 Text Input to enter text. See “Using T9® Text Input” on page 20.

The icon of the main menu feature in use always appears in the top left of the status icon rows. For a list of the main menu icons, see “Main Menu Options” on page 32.

Text Display Area

On the idle screen, the text display area shows **Boost** and the time and date. When you access other screens, this area displays menu options, messages, names, phone numbers, and other information.

The number of lines of text displayed in the text display area depends on which display view is selected:

- Standard view
- Compressed view
- Zoom view

In Standard view, five lines of text are displayed.

NOTE: Standard view is the default display setting. Unless otherwise noted, illustrations in this User's Guide depict Standard view.

Call Information Icons

Each of the following icons appear on the left side of the text display area providing you with information about your phone's line.

Icon	Indicates...
	In Call - phone is on an active call.
	Incoming Call - phone is receiving an incoming call.
	Outgoing Call - phone is placing an outgoing call.
	On Hold - phone has a call on hold.
	End Call - phone has ended the active call.

Menu Icon

The menu icon  appears on any screen from which a menu can be accessed. To access a menu, press  on your keypad.

Menus are context sensitive. That means that the options on the newly displayed menu apply to the task you are currently performing.

Pressing  from the idle screen accesses the main menu.

Display Options

Two display options appear at the bottom of most screens. These options enable you to perform a wide variety of actions, including:

- changing
- saving and viewing information
- running programs
- canceling previous actions

You activate a display option by pressing  below it.

The idle screen display options provide quick access to two main menu features. You can control which display options appear on the idle screen using the Personalize feature in the Settings menu (see “Changing Idle Screen Options”

on page 116). The display options on screens other than the Boost idle screen cannot be customized.

Navigating Menus and Lists

The *i55sr* phone is menu driven. By navigating menus, you access submenus which lead to all of the functions and features that are built into your phone. Use the menus to:

- store calls
- manage your Phonebook and Datebook
- change your phone settings
- browse the Boost Wireless Web
- and more

Some features include lists of names, numbers, or other information. These list items can be accessed the same way menu options are.

To access the items in a menu or list, scroll using the four-way navigation key  near the center of your keypad.

- Scroll down by pressing the lower portion of the navigation key .
- Scroll up by pressing the upper portion of the navigation key .
- Holding down the appropriate part of the navigation key speeds up scrolling.
- If more items appear in a menu or list than can be displayed in the text area, a down arrow or up arrow appears in the left side of the screen indicating that more options may be accessed by scrolling up or down.

Main Menu Options

To access the main menu, press  from the Boost idle screen

The main menu options are shown in the next table. You can change the order in which they appear by using the Personalize feature (see “Reordering Main Menu” on page 116).

Menu Item	Use to ...
 Web	Browse the Boost Wireless Web.
 Java Apps	Run pre-installed Java games on your phone.
 Settings	Customize your phone: Ring/Vibe, Phone Setup, In Call Setup, Security, Personalize, Initial Setup, and Voice Volume.
 Phonebook	Store and retrieve a list of stored entries for calling, editing, viewing, and deleting.
 Messages	Receive, store, access, and manage Voice Mail, Text Messages, and Net Alerts.
 Call Forward	Use settings to forward calls in various situations.
 Datebook	Schedule and organize events, by the day or the month, such as appointments and meetings.
 Memo	Input and store numbers to access later.
 Call Timers	Display the duration of phone calls, Private Calls, and Kilobytes sent and received.
 Recent Calls	Access a list of the last 20 sent, received, or missed calls. Calls can be made from this list.
 Shortcuts	Associate a menu option with a number on the alphanumeric keypad for quick and easy access.
 My Info	View the name, Private ID, phone number, and IP address of your phone.

 Styles	Create or edit a group of settings and save them as one for use in different environments.
 Call Alert	Store Boost 2WAY message alerts to respond to at your convenience.

To choose the highlighted main menu selection, press  under SELECT. To exit the main menu and return to the **Boost** idle screen, press  under EXIT or press .

Phonebook

The Phonebook allows you to store up to 250 frequently used names and numbers.

When you store information in your Phonebook, it is saved on your SIM card. If you move your SIM card to another Boost Mobile SIM-based phone, you can access information in your Phonebook from that phone.

NOTE: If you use a different SIM card in your phone, some information stored in the phone will not be transferred. See “Inserting/Removing the SIM Card” on page 14.

This section includes:

Phonebook Entries and Speed Dial Numbers	Page 36
Phonebook Icons	Page 36
Accessing Your Phonebook	Page 37
About Phonebook Entries	Page 37
Viewing Phonebook Entries	Page 38
Sorting Phonebook Entries	Page 38
Adding Phonebook Entries	Page 39
Deleting Phonebook Entries	Page 45

Plus Dialing	Page 47

Phonebook Entries and Speed Dial Numbers

Your Phonebook can store multiple phone numbers to a single name. For example, you can enter someone's name into your Phonebook once and then add that person's home, office, mobile phone, and fax numbers to the name. You can store up to seven phone numbers, a Private ID, and an IP address.

Each number stored in your Phonebook is automatically assigned a Speed Dial number that corresponds to its location in your Phonebook. Each phone number uses one Speed Dial location, even if it is assigned to the same name as other phone numbers. The phone number stored in location 1 is assigned Speed Dial number 1, the phone number stored in location 2 is assigned Speed Dial number 2, and so forth, to location 250.

NOTE: Private IDs do not have associated Speed Dial numbers.

Phonebook Icons

Icons that appear to the right of entries in your Phonebook convey information about those entries.

When you enter a number in your Phonebook, you can designate the number's type using any of the following icons:

	Mobile
	Private
	Work
	Main
	Home
	Pager
	Fax
	Other
	IP

For more information on entering numbers into your Phonebook, see “Adding Phonebook Entries” on page 39.

The “picker” arrows appearing around the number type icon indicates multiple numbers stored under one name:

Pickers

Accessing Your Phonebook

If PHBK is one of your display options:

From the idle screen, press  under PHBK.

If PHBK is not one of your display options:

1 From the idle screen, press .

2 Press  to scroll to **Phonebook**.

3 Press  under SELECT.

TIP: You can also access the Phonebook while you are on an active call. Press  then press  to scroll to Phonebook and press  under SELECT.

This brings you to the **Phonebook** screen. From this screen, you can view, sort, add, edit, and delete Phonebook entries, check Phonebook capacity, or make calls.

About Phonebook Entries

Each Phonebook entry may contain the following information:

- **The name associated with the entry** — Typically, this is the name of the person whose number you are storing in the Phonebook.
- **The type of number to be stored** — Mobile, Private, Work, Main, Home, Pager, IP, Fax, or Other.
- **The number to be stored** — Every Phonebook entry must contain a number. This number may be any type of phone number, Private ID, or an IP address.
- **A Speed Dial number** — You may accept the default Speed Dial number or assign a different one.

Viewing Phonebook Entries

Names with more than one number assigned to them appear with  surrounding the icon to the right of the name. For example, if you had stored a home and work number for Joe Smith, the entry for Joe Smith's home phone number would look like this:

Joe Smith 

When the name is highlighted, press  to scroll to the icons representing each of the numbers assigned to that name.

To view any of the numbers assigned to a name:

1 From the **Phonebook** screen, press  to scroll to the name associated with the number you want to see.

2 Press  to view the icons representing the numbers assigned to that name.

3 When the icon representing the number you want to view is displayed, press  under VIEW.

Or,

If there is a Private ID stored for the entry, press . Then press  to scroll to **View** and press  under SELECT.

4 Press  to view the other numbers stored for this name.

Sorting Phonebook Entries

You can sort your Phonebook entries by:

- **Name** — the name you entered for the entry
- **Speed #** — the Speed Dial location of the entry

NOTE: Private IDs cannot be accessed from the Phonebook when sorted by Speed Dial location.

To sort your Phonebook list:

1	From the Phonebook screen, press  to view the Phonebook Menu screen.
2	Press  to scroll to Sort By .
3	Press  under SELECT .
4	Press  to scroll to the desired sorting method: Name or Speed # .
5	Press  under SELECT .

Checking Phonebook Capacity

Your Phonebook can store up to 250 separate numbers. To see how many entries are stored in your Phonebook:

1	From the Phonebook screen, press  to view the Phonebook Menu screen.
2	Press  to scroll to Capacity .
3	Press  under SELECT . The Capacity screen shows how many storage spaces in your Phonebook are in use and how many are empty.

Adding Phonebook Entries

Using the following instructions, you will enter the information in the order the items appear on the Phonebook **Entry Details** screen. However, you can enter this information in any order by pressing  to scroll through the items on the **Entry Details** screen.

You can leave an item blank or unchanged by pressing  to scroll past it on the **Entry Details** screen.

NOTE: Number and type are required for a valid Phonebook entry.

To cancel a Phonebook entry at any time, press  to return to the idle screen.

To add a Phonebook entry:

- 1 To access the **Entry Details** screen:

From the **Phonebook** screen, with **[New Entry]** highlighted, press  under **SELECT**.

Or,

From the **Phonebook** screen, press . Then press  to scroll to **New** and press  under **SELECT**.

- 2 If you want to assign a name to your Phonebook entry:

With the **Name** field highlighted, press  under **CHANGE**.

From the **Name** screen, enter the name using the alphanumeric keypad.

See “Using T9® Text Input” on page 20 for information about entering text into this field.

When you are finished, press  under **OK**.

The **Entry Details** screen returns with the **Type** field highlighted.

- 3 With the **Type** field highlighted, press  under **CHANGE**.

From the **Type Editor** screen, press  to scroll to the type of number you want to assign to the Phonebook entry.

Press  under **SELECT**.

The **Entry Details** screen returns with the **#** field highlighted.

4 Assign a number to your Phonebook entry:

With the # field highlighted, press  under CHANGE.

Type the number using the alphanumeric keypad. For phone numbers, use the 10-digit format. For Private IDs use **Area ID*Network ID*Member ID** (the asterisks must be included as part of the Private ID).

To delete a digit, press  under DELETE.

See “Pause Digit Entry” on page 46 and “Plus Dialing” on page 47 for information on using these features when storing phone numbers in your Phonebook.

NOTE: The number can be up to 20 characters long.

When you are finished, press  under OK.

The **Entry Details** screen returns with the **Speed #** field highlighted.

5 The default Speed Dial number assigned to the phone number is displayed in the **Speed #** field. This is always the next available Speed Dial location.

NOTE: Private IDs do not have associated Speed Dial numbers.

To accept the default Speed Dial location, press  under OK.

If you want to assign the phone number to a different Speed Dial location:

With the **Speed #** field highlighted, press  under CHANGE.

Press  under DELETE to delete the current Speed Dial number.

Type the new Speed Dial number using the alphanumeric keypad.

When you are finished, press  under OK.

NOTE: If you change the Speed Dial number to one already in use, you will be prompted to overwrite the entry that is currently in that location. Pressing  under YES will delete the existing entry from your Phonebook.

- 6** If you want to store more numbers to the name associated with this Phonebook entry:

Press  to scroll to **Type** and then press  under **CHANGE**.

A new **Type** field appears for the additional number.

Enter the information for the additional number using step 3 through step 7.

NOTE: Each name in your Phonebook may have up to seven phone numbers, one Private ID, and one IP address associated with it.

- 7** When you have entered all the information for this Phonebook entry, press  under **DONE**.

Storing Numbers and Private IDs Fast

Your phone gives you two ways to store numbers quickly: from the idle screen and from the Recent Calls list.

To store a number from the idle screen:

- 1** From the idle screen, use the alphanumeric keypad to enter the number you want to store. For phone numbers, use the 10-digit format. For Private IDs, use **Area ID*Network ID*Member ID**.

- 2** Press  to access the **Dialing Menu** screen.

- 3** With **Store Number** highlighted, press  under **SELECT**.

This displays the **Store To** screen.

- 4 To store to a new entry**, press  under SELECT. The **Entry Details** screen will display with the number entered in the field.

Or,

To store to an existing entry, press  to scroll the list of names in your Phonebook. Or press the first letter of the entry to jump to the entry. Once the desired entry is highlighted, press  under SELECT. The Phonebook information for that entry displays with the number entered in the # field and the **Type** field highlighted.

- 5** Press  under CHANGE. Press  to scroll to the type of number you want to assign to the Phonebook entry. Press  under SELECT.

- 6** If you want to add more information to the Phonebook entry, follow the applicable instructions in “Adding Phonebook Entries” on page 39.

- 7** Press  under DONE.

To store a number from the Recent Calls list:

- 1 From the Recent Calls screen**, press  to scroll to the number you want to store.

- 2** Press  under STORE. This displays the **Store To** screen with **[New Entry]** highlighted.

- 3 To store a new entry**, press  under SELECT. The **Entry Details** screen displays with the number entered in the # field and the **Name** field highlighted.

Or,

To store to an existing entry, press  to scroll through the names in your Phonebook. Or, press the first letter of the entry to jump to the entry. Once the desired entry is highlighted, press  under SELECT. The Phonebook information for that entry displays.

- 4** Press  to scroll to the type of number you want to assign to the Phonebook entry. Press  under CHANGE.

- 5 If you want to add more information to the Phonebook entry, follow the applicable instructions in “Adding Phonebook Entries” on page 39.
- 6 Press  under DONE.

To store a Private ID from the Recent Calls list:

- 1 Press  to scroll to the Private ID number you want to store.

NOTE: The Store option for Private ID numbers (e.g., 123*123*1234), will not display in the Recent Calls list.
- 2 With the **Private ID** highlighted, press  to access the **Recent Calls Menu**. Press  to scroll to **Store**. Press  under **SELECT**. This displays the **Store To** screen with **[New Entry]** highlighted.
- 3 **To store to a new entry**, press  under **SELECT**. The **Entry Details** screen displays with the Private ID icon entered in the **Type** field, the Private ID number entered in the **#** field, and the **Name** field highlighted. With the **Name** field highlighted, press  under **CHANGE**. Enter the name using the alphanumeric keypad. Press  under **OK**.

Or

To store to an existing entry, press **R** to scroll the list of names in your Phonebook. Once the desired entry is highlighted, press  under **SELECT**. The **Entry Details** screen displays with the Private ID icon entered in the **Type** field, the Private ID number entered in the **#** field, and the **Name** field highlighted.
- 4 Press  under DONE.

Editing Phonebook Entries

- 1 From the **Phonebook** screen, press  to scroll to the entry you want to edit.
- 2 Press  to view the **Phonebook Menu**.

3 Press  to scroll to **Edit**.

4 Press  under SELECT. The **Entry Details** screen displays.

5 Follow the applicable instructions in “Adding Phonebook Entries” on page 39 to edit the various fields.

NOTE: To add additional numbers to an existing entry, follow the applicable instructions in “Adding Phonebook Entries” on page 39.

Deleting Phonebook Entries

1 From the **Phonebook** screen, press  to scroll to the entry you want to delete.

2 Press  to view the **Phonebook Menu**.

3 Press  to scroll to **Delete Contact** or **Delete Number**.

Delete Contact deletes the name and all numbers associated with that name.

Delete Number deletes the number associated with the icon that is currently displayed in the Phonebook list for the name. The name and all the other numbers will remain.

4 Press  under SELECT. A warning screen displays requiring you to confirm the deletion.

Pause Digit Entry

When storing a number, you can program your phone so that it will not only dial a number but also pause before entering another series of numbers such as a personal identification number (PIN) or password. This feature is particularly useful for accessing automated services such as your home voice mail from your i55sr phone.

Example: Let's say you have a home voice mail account that you want to check while at an event. And, to access that account you must do the following:

- dial your home telephone number
- press # while the home voice mail greeting is being played
- enter your PIN to access your messages

You can program your phone to enter all of the above information for you by separating each entry with a pause. The stored data would look like this: 2135557777P#P1234. In this example, the first ten-digits represent the number that must be dialed to access your home voice mail. The P represents a 3 second pause. The # interrupts your greeting. The second P represents another 3 second pause. The last four digits represent your PIN.

To create a three-second pause, follow the steps below:

Press and hold  for two seconds. The pause symbol (P) will appear on the display screen.

NOTE: You can enter up to 20 characters in a single entry, stored or dialed. You can program your phone to pause for more than 3 seconds. Performing the above step twice will program two pauses and cause your phone to wait 6 seconds before entering the next set of numbers.

Plus Dialing

NOTE: Your phone has not been set up to make international calls or roam outside of the United States. Please contact Boost Customer Care at 1-888-BOOST-4U (1-888-266-7848) if you would like to have access to international dialing from your *i55sr* phone.

This feature enables you to place an international call from most countries—without entering the local international access code. Use Plus Dialing for all Phonebook entries if you plan to travel outside the United States. You can enter phone numbers into your Phonebook using either Plus Dialing and Storing Numbers Fast or Adding Phonebook Entries and Plus Dialing.

To add a phone number using Plus Dialing and Storing Numbers Fast:

- 1 Press and hold  for two seconds. A “0” appears, then changes to a “+”.

NOTE: The network translates the “+” into the appropriate international access code needed to place the call.

- 2 Enter the country code, city code, or area code, and phone number.

- 3 Continue by following the remaining instructions for “Storing Numbers and Private IDs Fast” on page 42.

To add a phone number using Adding Phone Book Entries and Plus Dialing:

- 1 Begin by following the instructions for “Adding Phonebook Entries” on page 39. Before you type the number to be stored, follow the rest of these instructions for using Plus Dialing.

- 2 Press and hold  for two seconds. A “0” appears, then changes to a “+”.

NOTE: The network translates the “+” into the appropriate international access code needed to place the call.

- 3 Enter the country code, city code, or area code, and phone number.

Continue with the Phonebook entry, following the remaining instructions for “Adding Phonebook Entries” on page 39.

Digital Cellular

The *i55sr* phone uses Nextel's All-Digital National Network for digital cellular service.

This section includes:

Phone Calls	Page 50
Emergency Calling	Page 54
Special Dialing Codes	Page 55
Receiving a Phone Call	Page 55

Phone Calls

Your i55sr phone provides the following features for making phone calls:

- Direct Dial
- Phonebook
- Recent Calls
- Speed Dial
- Turbo Dial®
- Last Number Redial

Using Direct Dial

- | | |
|---|--|
| 1 | From the idle screen, use the keypad to enter the 10-digit phone number you want to call. |
| 2 | Press  to place the call. |
| 3 | Press  to end the call. |

NOTE: See “Plus Dialing” on page 47 for information on making international calls.

If you make a mistake:

- To clear one digit, press  under DELETE.
- To clear all digits, press and hold  under DELETE.
- To insert a digit, press  to move the cursor.
- To cancel, press .

Making Calls from the Phonebook

After you have entered phone numbers into your Phonebook, you can use these numbers to make phone calls. For information on entering numbers into your Phonebook, see “Adding Phonebook Entries” on page 39.

To make calls from the Phonebook:

- 1 From the idle screen, if PHBK is one of your display options, press  under PHBK.

Or,

From the idle screen, press , then press  to scroll to **Phonebook**. Press  under SELECT.

- 2 Press  to scroll through the names in your Phonebook.

Or,

Use the alphanumeric keypad to enter the first letter of the name and press  to scroll through the names beginning with that letter.

Stop when the name of the person you want to call is highlighted.

- 3 If more than one number is stored for the person you want to call,   appears around the icon to the right of the person's name.

Press  to scroll through the icons representing the numbers stored for that person.

Or,

Press  under VIEW to view all the numbers stored for this person. Then press  to scroll to the number you want to call.

For more information on assigning multiple numbers to one person, see "Adding Phonebook Entries" on page 39.

- 4 Press  to place the call.

- 5 Press  to end the call.

Making Calls from the Recent Calls List

Your phone stores the numbers of the last 20 calls you received or sent in the Recent Calls list.

- 1 From the idle screen, press .

Or,

From the idle screen, press . Press  to scroll to **Recent Calls**. Press  under SELECT.

- 2 Press  to scroll through the list of received or sent recent calls until you reach the desired call.

- 3 To view additional information about the call:

Press  under VIEW.

Or,

Press  to access the **Rec. Calls Menu**. Then press  to scroll to **View** and press  under SELECT.

- 4 Press  to place the call.

- 5 Press  to end the call.

Using Speed Dial

Each phone number stored in your Phonebook is assigned a Speed Dial number. You can use the Speed Dial number to quickly place a call.

- 1 From the idle screen, enter the Speed Dial number assigned to the phone number you want to call.

- 2 Press . The number's Phonebook entry information will display.

- 3 Press  to place the call.

- 4 Press  to end the call.

Using Turbo Dial

Turbo Dial allows you to call the numbers in your Phonebook associated with Speed Dial numbers 1 through 9 by pressing and holding the corresponding numeric key on the keypad.

Press and hold a number (keys 1 through 9).

NOTE: Turbo Dial cannot be accessed while the browser is active, nor while Keypad Lock or SIM Lock is active.

Last Number Redial

Press and hold  to redial the last number you called.

NOTE: If you receive “System Busy, Try Later,” press  to redial the number automatically. You will hear a ring-back tone when the call is successfully placed.

Making TTY Calls

You can use your phone to make calls using a TTY device.

When you make a TTY call, the call begins in the TTY mode you last selected. You can change the TTY mode during a call. For more information on choosing a TTY mode, see “Setting TTY Mode” on page 123.

1 Connect one end of a 2.5mm cable into the jack on the phone. (To locate the jack, see page 4.) Connect the other end of the cord into your TTY device.

2 Enter the phone number you wish to call and press .

Placing International Phone Calls

NOTE: Your phone has not been set up to make international calls or roam outside of the United States. Please contact Boost Customer Care at 1-888-BOOST-4U (1-888-266-7848) if you would like to have access to international dialing from your *i55sr* phone.

When making an international call from outside of the United States and Canada, you can either enter the international access code directly (for example, 011 in the United States) or use Plus Dialing.

You can make international calls while traveling outside of the United States and Canada from your Phonebook if you have stored the numbers with Plus Dialing. See “Adding Phonebook Entries” on page 39 and “Plus Dialing” on page 47 for more information.

NOTE: Your service default is “International Calls Restricted.” Contact Boost Customer Care to obtain international dialing access.

NOTE: International calls placed within the United States and Canada do not require an international access code.

To make an international call using Plus Dialing:

- | | |
|--|---|
| 1 | Press and hold  for two seconds. A “0” appears, then changes to a “+”. |
| NOTE: The network translates the “+” into the appropriate international access code needed to place the call. | |
| 2 | Enter the country code, city code, or area code (as needed), and phone number. |
| 3 | Press  . |
| 4 | Press  . |

Emergency Calling

Your phone supports emergency calling. Emergency calls can be made even when the SIM card is blocked or not in the phone.

To place a call in an emergency, press    . You will be connected to the nearest emergency dispatch center. If you are on an active call, you must end it before calling 911.

NOTE: If you have enabled the Keypad Lock feature, you must unlock the phone’s keypad before any call can be made, including 911 emergency calls.

Special Dialing Codes

Non-Emergency Numbers

Boost Mobile supports many “non-emergency” numbers (such as #77, 311,...) provided by local and state governments. These numbers are used to report non-emergency incidents. If the situation includes imminent danger or loss of life, you should dial 911.

Telecommunications Relay Service

Boost Mobile supports services for communicating with speech and/or hearing impaired individuals. You can press   to reach a local Telecommunications Relay Center. You will then be connected to your destination number. Relay service works through a Communications Assistant who reads messages typed into a TDD/TTY device by a speech or hearing impaired individual to you. The Communications Assistant then types your spoken messages to the hearing or speech impaired individual. Telecommunications Relay Service is available 24 hours a day, seven days a week, and every call is strictly confidential.

NOTE: Using 711 to reach Telecommunications Relay Service may not be available in all areas.

Receiving a Phone Call

Incoming calls are indicated by a ring, vibration, or backlight illumination.

The screen displays:

- the caller's name (if stored in your Phonebook), and the icon indicating number type (work, home, mobile, etc.), or
- the 10-digit phone number if Caller ID information is available.

Otherwise, the screen displays **Incoming Call**.

Press  or press  under YES to answer the call.

Sending Unanswered Calls to Voice Mail

Press  or press  under NO while your phone is ringing to transfer incoming calls directly to Voice Mail. The  icon will appear on the idle screen to remind you that you have a stored voice mail message.

Missed Calls

Missed calls are shown on the display screen with the missed call icon .

Ending a Phone Call

Simply press .

NOTE: The Recent Calls list displays briefly after each call.

Recent Calls

The Recent Calls feature stores the phone numbers of the 20 most recent calls you have made and received, including Private Calls. You can access Recent Calls to:

- view your recent calls
- store numbers to the Phonebook
- delete recent calls
- call numbers on the Recent Calls list

NOTE: The Recent Calls list displays briefly after each call.

Recent Calls Icons

For Private Calls and numbers stored in your Phonebook, an icon appears to the right of the name or number indicating the Phonebook type of the number used in the call. See “Phonebook Icons” on page 36 for more information about Phonebook types.

For phone calls, an icon appears to the left of the name or number indicating the type of call:

-  indicates an incoming call
-  indicates an outgoing call
-  indicates a missed call (Missed calls appear on your Recent Calls list only if you have Caller ID.)

For Boost 2WAY calls, an icon appears to the left of the name or number indicating the type of call:

-  indicates a Private Call

Viewing Recent Calls

If the number of the recent call is stored in your Phonebook, the name associated with the number displays.

To view your Recent Calls list:

1 From the idle screen, press .

Or,

From the idle screen, press . Press  to scroll to **Recent Calls**. Press  under SELECT.

2 Press  to scroll the list of recent calls.

Getting Detailed Information About Recent Calls

To get more information about a recent call:

1 From the **Recent Calls** screen, press  to scroll to the call for which you want more information.

2 Press  to access the **Rec. Calls Menu**. Then press  to scroll to **View** and press  under SELECT.

The **Call Details** screen displays information such as the name associated with the number of the recent call (if stored in your Phonebook), the number, the date, time, and duration of the call.

Storing a Recent Call Number to the Phonebook

To store a number from the Recent Calls list to the Phonebook:

1	From the Recent Calls screen, press  to scroll to the number you want to store.
2	Press  under STORE . Or, Press  to access the Rec. Calls Menu . Then press  to scroll to Store and press  under SELECT . This displays the Store To screen with [New Entry] highlighted.
3	To store a Recent Call number of Private ID to the Phonebook, follow step 3-6 in “Storing Numbers and Private IDs Fast” on page 42.

Calling From the Recent Calls List

See “Making Calls from the Recent Calls List” on page 52.

Deleting Recent Calls

To delete a recent call:

1	From the Recent Calls screen, press  to scroll to the call you want to delete.
2	Press  to access the Rec. Calls Menu .
3	Press  to scroll to Delete .
4	Press  under SELECT .
5	Press  under YES to confirm the deletion.

To delete all calls on the Recent Calls list:

1	From the Recent Calls screen, press  to access the Rec. Calls Menu .
2	Press  to scroll to Delete All .
3	Press  under SELECT.
4	Press  under YES to confirm the deletion.

Call Timers

Call Timers measure the duration of your cellular phone calls and Private Calls, as well as the number of Kilobytes sent and received by your phone.

The **Call Timers** menu displays the following options:

- **Last Call** — displays the duration of your most recent phone call.
- **Phone Reset** — keeps a running total of your phone call minutes, until you reset it.
- **Phone Lifetime** — displays the total minutes of all your phone calls.
- **Prvt/Grp Reset** — keeps a running total of all of your Private minutes, until you reset it.
- **Prvt/Grp Lifetime** — displays the total minutes of all your Private Calls.
- **Kbytes Reset** — keeps a running total of the number of Kilobytes sent and received by your phone, until you reset it.

To view the **Call Timers** menu:

1	From the idle screen, press  .
2	Press  to scroll to Call Timers .
3	Press  under SELECT.

To view or reset a Call Timers option:

1	From the Call Timers menu, press  to scroll to the Call Timers option you want to view or reset.
---	--

2 Press  under SELECT.

3 If the feature does not include an option to reset or you do not wish to reset the option, press  under DONE when you are finished viewing.

To reset a feature, press  under RESET. When the confirmation screen appears, press  under YES to confirm the reset.

NOTE: The values displayed by Call Timers should not be used for billing.

Hands-Free Speakerphone

The *i55sr* phone provides the convenience of a hands-free speakerphone for placing safer phone calls.

The speakerphone option (SPEAKER) is available whenever you are on an active call.

NOTE: During speakerphone operation, you may either speak or listen, but you cannot do both at the same time.

To turn the speakerphone on:

While on an active call, press  under SPEAKER.

While speakerphone is on, **Spkrphone On** appears in the text display area.

To turn the speakerphone off:

Press  under SPEAKER.

Mute

Use the Mute feature to listen to incoming audio without allowing sound from your phone's microphone to be transmitted over the phone line.

To turn mute on:

While on an active call, press  under MUTE.

While mute is on, UNMUTE appears as a display option.

To turn mute off:

Press  under UNMUTE.

Call Hold

When you are on an active call, you can place the call on hold.

To place an active call on hold:

- 1 Press  to access the **Call Menu**.
- 2 Press  to scroll to **Hold**.
- 3 Press  under SELECT.
- 4 Resume the call by pressing  under RESUME.

Call Forwarding

Boost Mobile's Call Forwarding features forward calls to the number you designate. The following Call Forwarding options are available:

- **All Calls** — When this option is turned on, all calls will be automatically sent to a number you specify. When this option is turned off, your **Detailed** options will be activated.
- **Detailed** — Choosing this option enables you to forward calls you missed to Voice Mail or other numbers, depending on why you missed each call:
 - **Busy** — your phone is engaged in other activities.
 - **No Answer** — you do not answer. The phone will ring 4 times before forwarding the call.
 - **Unreachable** — your phone is out of coverage or powered off.

When your phone is set to forward All Calls, the Call Forward icon appears on the top row of your display screen to indicate the call forwarding option is on.

Icon	Indicates...
	Line 1 is active; calls from Line 1 are being forwarded.

Turning On Call Forwarding

1	Press  then press  to scroll to Call Forward .
2	Press  under SELECT.
3	At the Call Forward screen, the Forward field is highlighted. Press  under CHANGE.
4	Press  to scroll to All Calls .
5	Press  under SELECT.
6	Press  to scroll to the To field and press  under CHANGE.

7 To activate a call forwarding number:

If you have never used Call Forwarding before, the **Forward** screen appears. To enter a call forwarding number, type the number on your phone's keypad or press  under SEARCH to select from numbers stored in your phone. Press  under OK.

Or,

If you have used Call Forwarding before, the call forwarding number you last used is displayed. Press  under CHANGE to access the **Forward** screen.

To forward your calls to this number, press  under OK.

To forward your calls to a different number, press and hold  under DELETE to erase the displayed number. Type the new number on your phone's keypad or press  under SEARCH to select from numbers stored in your phone. Press  under OK.

Your calls will now be forwarded to the number that you selected.

Turning Off Call Forwarding

1 Press  then press  to scroll to **Call Forward**.

2 Press  under SELECT.

The **Call Forward** screen displays with the **Forward** field highlighted.

3 Press  to scroll to the **To** field and press  under CHANGE.

4 Press  to scroll to **Off** and press  under SELECT.

You will now receive all calls on your phone. When you are unavailable, your calls will be forwarded according to your **Detailed** call forwarding settings. By default, the **Detailed** option is set to forward your calls to Voice Mail. Turning off Call Forwarding restores your ability to receive Voice Mail messages when you are unavailable (see “Turning Off Call Forwarding” on page 63).

Caller ID

If you subscribe to Caller ID, your phone automatically displays the phone number or name (if the 10-digit phone number is stored in your Phonebook) of the person calling (unless blocked by the caller), enabling you to decide whether to take the call or forward it to Voice Mail.

NOTE: Caller ID information is not available on all calls.

A caller's name is displayed if you have entered the person's number into your Phonebook (see "Adding Phonebook Entries" on page 39). Otherwise, the caller's phone number will be displayed.

Maintaining Your Privacy with Per-Call and Per-Line Blocking

Boost Mobile provides two methods to prevent those you call from seeing your number on their own Caller ID displays.

NOTE: Your i55sr phone number cannot be blocked from calls made to 911, 800, 855, 866, 877, 888, or other toll-free phone numbers.

Per-Call Blocking

You can block delivery of your phone number to other Caller ID units for a single phone call.

To set:

Press    before dialing the call.

Per-Line Blocking

You can permanently block delivery of your phone number on every call you make. You must order this feature by contacting Boost Customer Care.

To disable on a per-call basis:

Press    before the call.

Call Restrictions

You can prevent your phone from making or receiving specific types of calls. Boost Mobile currently offers two types of Call Restrictions:

- no incoming calls
- no outgoing calls (except 911)

Contact Boost Customer Care for more information.

Boost Mobile 411

The Directory that puts you straight through — Now there is no need to make two calls, memorize a number, or hunt for a pen to write a number down. Boost Mobile 411 is your mobile directory service that connects you straight through to the number you want.

White Page Listings

You can request a telephone number for any person, business, or government agency in the continental United States and Hawaii. Operators can also provide address information if available.

Yellow Page Listings

You can ask the operator to perform a search by category if the specific business name is unknown. For example, you can request information for a surf shop near your home or school.

Nationwide Call Completion

Boost Mobile 411 operators can connect you to any listing in the continental United States and Hawaii. If requested, the operator will stay on the line while connecting to the number.

Driving Directions

Boost Mobile 411 operators are able to provide directions to reach a specific destination. Operators will work with you to determine your starting point and provide clear directions to the destination.

Restaurant Reservations

Boost Mobile 411 operators can assist in finding a restaurant and then coordinate reservations. A Boost Mobile 411 operator will confirm your reservation information through a return phone call. For your convenience, the reservation will be in your name.

NOTE: Reservation service may not be available for all restaurants.

Movie Listings and Show Times

Boost Mobile 411 operators have access to movie listings at most theaters in the continental United States and Hawaii. You only need to ask for a specific movie or movie theater to get current movies, locations or show times. Additional information such as running time, synopsis, and ratings are also available. Show times and listings are available 24-48 hours in advance.

Local Event Information

You can request information on local events such as sporting events, concerts, state and county fairs and other current events. Boost Mobile 411 operators can provide dates, times, and locations for these events.

Boost Mobile Voice Mail

Record a personalized greeting and use your Boost Mobile Voice Mail when you are not available to answer calls.

This section includes:

Setting Up Your Voice Mail Box	Page 67
Receiving Voice Mail Messages	Page 68
Logging into your Boost Mobile Voice Mail	Page 68
Advanced Voice Mail Features	Page 72
Boost Mobile Voice Mail Tree	Page 80

This section covers the most commonly used Voice Mail features. Once you log into Voice Mail, there are a number of innovative features you can access. They are also covered in this section. After you access Voice Mail, an automated system tells you each menu option and which key to press to make a menu selection. See “Boost Mobile Voice Mail Tree” on page 80.

Setting Up Your Voice Mail Box

You must set up your Voice Mail box before you can retrieve messages. The following steps will tell you how to setup your mailbox. Before getting started, see “Recording Your Active Greeting” on page 72 for information you may want to include in your greeting.

- 1 Using your *i55sr* phone, enter your 10-digit Boost Mobile Personal Telephone Number (PTN). For example: 2135557777.

If you are calling from a phone other than your *i55sr* phone, dial your 10-digit Boost Mobile Personal Telephone Number (PTN). When you hear the greeting, press * to access your Voice Mail box.

The system prompts you to **Enter your password**. Enter the last seven digits of your Boost Mobile Personal Telephone Number. For example: 5557777. This is your temporary password.

2 Follow the system instructions to:

- Create a new four- to seven-digit password (see “Changing Your Password” on page 71).
- Record your name (see “Recording Your Name” on page 71).
- Record a greeting (see “Recording Your Active Greeting” on page 72).

3 When the system says “Enjoy using Boost Mobile Voice Mail”, your mailbox is set up.

Receiving Voice Mail Messages

Your phone is pre-programmed with default Call Forwarding settings to forward your calls to Voice Mail when you are not available. The default setting is Detailed with the If Busy, If No Answer and If Unreachable fields set to your Voice Mail access number.

New Message Indicators

When you receive a new message:

- **New Voice Mail Message** will display on the screen.
- Your phone will alert you every 30 seconds until you press  under CALL or  under EXIT.

NOTE: See “Alert Timeout” on page 124 for information on how to customize your alert notification.

Sending Unanswered Calls to Voice Mail

Press  or press  under NO while your phone is ringing to transfer incoming calls directly to Voice Mail. The  icon will appear on the idle screen to remind you that you have a stored Voice Mail message.

Logging into your Boost Mobile Voice Mail

To log into Voice Mail, you must first access the Message Center on your phone.

1	From the idle screen, press  under MSG. The Message Center screen displays.
2	Press  to scroll to Voice Mail. The numbers of new and total Voice Mail messages display.
3	Press  under CALL to log into Boost Mobile Voice Mail. Calling displays as you are connected to the network. NOTE: If you hear a message that says, "Enter the phone number of the subscriber you are trying to reach," enter your own 10-digit Boost Mobile Personal Telephone Number. When the greeting plays, press  to receive a password prompt.
4	When prompted, enter your password.
5	Follow the system instructions for playing, saving, and deleting messages. For more information, see "Boost Mobile Voice Mail Tree" on page 80.

NOTE: You must receive a message before you can access Voice Mail for the first time from your i55sr phone. (Tip: You can leave yourself a message.)

Main Voice Mail Menu

You are at the main Voice Mail menu when you hear the options listed below.

- To play your messages, press . (This option plays only if you have new or saved messages.)
- To record a message, press .
- To change your greeting, press .
- To access your personal options press .

If you press  while you are in a sub-menu, you will go to the previous menu. If you press  , you will go to the main Voice Mail menu.

From the main Voice Mail menu, press  to exit Voice Mail. At any time, you may end the call by pressing .

Playing Messages

When you receive a new Voice Mail message, you can either listen to it immediately or later. Press **1** under **CALL** to listen now or press **1** under **EXIT** to listen later.

Options available while listening to your messages:

Replay previous six seconds.	Press 1
Rewind to beginning of message.	Press 1 1
Pause/continue the current message.	Press 2
Fast forward 6 seconds.	Press 3
Fast forward to end of message.	Press 3 3
Play the date and time stamp.	Press 5 5

Options available while a message is playing or after it has played:

Copy the message to another subscriber. (See “Recording, Copying, and Replying to Messages” on page 75.)	Press 6
Delete the message.	Press 7
Reply to a message.	Press 8
Save the message.	Press 9
Skip to the next message.	Press #

Saving and Deleting Messages

While a message is playing or after you have finished listening to it, you can save it or delete it. To save a message, press **9**. To delete a message, press **7**. To have messages automatically saved, see “Automatic Playback” on page 74.

Messages that are not saved or deleted remain in your mailbox as new messages. All messages are automatically deleted after 21 days.

Recovering Deleted Messages

To retrieve deleted messages, press ***4** **3 DIAL**. This option only applies to the current Voice Mail session. If you end the call, the messages will be permanently deleted.

IMPORTANT: After exiting the Voice Mail session, you cannot recover deleted messages.

Changing Your Password

To change your current password:

1	From the main Voice Mail menu, press 4 DIAL to access Personal Options.
2	Press 4 DIAL to access Personal Preferences.
3	Press 1 DIAL to modify password.
4	Enter your new password. This password must be all numbers. It must be 4- to 7-digits long.
5	Press *4 *4 to return to the main menu.

NOTE: If you forget your password, contact Boost Customer Care.

IMPORTANT: For security purposes, it is recommended that you do not choose sequential or repeated digits like 1-2-3-4 or 5-5-5-5 for your password.

Recording Your Name

When you send, reply to, or copy a message, your name response precedes the message. To record or re-record your name at any time:

1	From the main Voice Mail menu, press 4 DIAL to access Personal Options.
2	Press 4 DIAL to access Personal Preferences.
3	Press 3 DIAL to access the Record Your Name option.
4	Press 2 DIAL to record your name.

5 Press **✶✶** to return to the main menu.

Recording Your Active Greeting

Through Boost Mobile Voice Mail service, there are a number of ways in which people can reach you. You may want to include one or all of the following options in your greeting so that callers will know they are available.

- Press **1** to send a numeric message.
- Press **2** to send an operator assisted message. (This option is available only if you are a subscriber of Operator Assisted Messaging. Contact Boost Customer Care for more information.)
- Press **#** to skip the greeting and record a message immediately.

To record or alter your greeting at any time:

1 From the main Voice Mail menu, press **3** to change your greeting.

2 Press **1** to play, press **2** to record or re-record, or press **3** to delete your active greeting.

3 Record your greeting and press **#** when you have finished.

4 Press **✶✶** to return to the main menu.

Advanced Voice Mail Features

Multiple Greetings

Boost Mobile Voice Mail service allows you to have up to five different greetings. You can designate which greeting will be your active greeting at any given time. For example, instead of your regular greeting, you may wish to activate a different greeting for days when you are traveling or on vacation.

The greeting that was recorded during your initial Voice Mail box setup is Greeting 1. This is your default active greeting.

Recording Additional Greetings

To record additional greetings:

1	From the main Voice Mail menu, press 3 to access the Greetings menu.
2	Press 4 to modify greetings.
3	Enter the greeting number you wish to create or modify.
4	Press 2 to record a greeting.
5	Record your greeting and press # when you have finished.
6	Press * * to return to the main menu.

Selecting Your Active Greeting

To select your active greeting:

1	From the main Voice Mail menu, press 3 to access the Greetings menu.
2	Press 3 to select another greeting to be active.
3	Enter the number of the greeting that you would like to be active.
4	The system will confirm your active greeting number.
5	Press 1 to play your active greeting.
6	Press * * to return to the main menu.

Greetings Schedule

You can choose to have your greetings automatically activated based on a pre-determined time schedule. By activating the Greeting Schedule, Greetings 1, 2 and 3 will automatically play according to the time schedule listed below.

Greeting 1	Evenings and Weekends	5:00 pm --7:59 am, Monday -- Friday 24-hours, Saturday and Sunday
------------	-----------------------	--

Greeting 2	Weekday Mornings	8:00 am -- 11:59 am Monday -- Friday
Greeting 3	Weekday Afternoons	Noon -- 4:59 pm Monday -- Friday

Activating Your Greeting Schedule

To activate the greeting schedule:

1	From the main Voice Mail menu, press 3 to access the Greetings menu.
2	Press 9 to activate your greeting schedule.
3	Press * * to return to the main menu.

Automatic Playback

By default, the playback mode of your Voice Mail service is set to Normal. Boost Mobile's Automatic Playback feature automatically plays and saves new messages when you log in. To activate Automatic Playback:

1	From the main Voice Mail menu, press 4 to access Personal Options.
2	Press 4 to access Personal Preferences.
3	Press 2 to access Playback Preferences.
4	Press 2 to switch between Automatic and Normal Playback.
5	Press * * to return to the main menu.

Changing the Playback Order of Messages

With Boost Mobile Voice Mail service, you can select the order in which you want unheard messages to be played. You may listen to the last received

message first, or you may listen to the first received message first. To select the order in which new messages should be played:

1	From the main Voice Mail menu, press 4 GMR to access Personal Options.
2	Press 4 GMR to access Personal Preferences.
3	Press 2 MR to access Playback Preferences.
4	Press 1 L to switch between the playback orders.
5	Press * * to return to the main menu.

Recording, Copying, and Replying to Messages

These functions allow you to record and send, reply to, or copy a message to an assigned destination address or Group List number.

If you record a complete or partial message, but do not send it, Boost Mobile Voice Mail service will refer to this message as an “in preparation” message. Before sending messages you may want to see “Delivery Options” on page 76.

To record and send a message:

1	From the main Voice Mail menu, press 2 MR to access Record a Message.
2	Record your message and press # to end the message.
3	Press 9 MR at the prompt to indicate that you want to send the message or press 5 MR for Delivery Options.
4	Enter the mailbox number and/or group list number(s). (A mailbox number is the 10-digit Boost Mobile Personal Telephone Number of a Boost Mobile customer. The name of the recipient plays if it is recorded.)
5	Press # to send.
6	Press * * to return to the main menu.

NOTE: You can only send messages using this method to Boost Mobile customers in your home market.

Delivery Options

After you have created a message, you can assign the message to a category before you send it. Below is a list of the options that can be applied to a message:

Urgent	Recipient will hear this message before other messages.
Private	Recipient cannot copy the message to another mailbox or phone number.
Notification of Non-Delivery	You will be notified if the recipient has not listened to your message by a certain date and time.
Future Delivery	You can specify a time and date (up to three months in advance) for the message to be delivered. (See “Time and Date Charts” on page 79.)
IMPORTANT: Once a message has been sent for future delivery, it cannot be retrieved or deleted.	

To set a special delivery option:

1	After recording your message but before sending it, press 5 for Delivery Options.
2	Press the number that corresponds with the desired delivery option: <ul style="list-style-type: none">• Press 1 for Urgent.• Press 2 for Private.• Press 3 for Notification of Non-Delivery. At prompt, specify time and date.• Press 4 for Future Delivery of Messages. At prompt, specify time and date.• Press 9 to send the message immediately.
3	The list of options will be presented again. Select an additional option or press 9 to send the message.
4	Enter the destination mailbox or Group List number of the recipient(s).
5	Press # to send.

- | |
|--|
| 6 Press *← *← to return to the main menu. |
|--|

Working With Group Lists

The Group List feature enables you to create a list and assign it a unique name. Then, you can add mailbox numbers, group lists or individuals — by name — to the list. Once you create a list you can send a voice message to everyone on the list by entering the group list number. You can have up to 40 group lists. Each list can hold up to 50 addresses.

Creating Group Lists

To set up a Group List:

- | | |
|----------|--|
| 1 | From the main Voice Mail menu, press 4 ON to access Personal Options. |
| 2 | Press 2 NO to access your Group Lists. |
| 3 | Press 2 NO to create a Group List. |
| 4 | Enter the one- or two-digit group list number and press # . |
| 5 | Record a name for the list and press # . |
| 6 | Select group members by mailbox number, Group List, or name. |
| 7 | Press # to save all entries added to the list. |
| 8 | Press *← *← to return to the main menu. |

Modifying a Group List

- | | |
|----------|--|
| 1 | From the main Voice Mail menu, press 4 ON to access Personal Options. |
| 2 | Press 2 NO to access Group Lists. |
| 3 | Press 4 ON to modify a Group List. |
| 4 | Enter the number of the Group List you want to modify. |

- | | |
|---|--|
| 5 | Press 1 to add a new recipient. |
| 6 | Press # to save your changes. |
| 7 | Press * * to return to the main menu. |

Deleting a Group List

- | | |
|---|---|
| 1 | From the main Voice Mail menu, press 4 to access Personal Options. |
| 2 | Press 2 to access Group Lists. |
| 3 | Press 3 to delete a Group List. |
| 4 | Enter the number of the Group List you want to delete. The system will play the name of the Group List. |
| 5 | Press # to delete the list. |
| 6 | Press * * to return to the main menu. |

Message Forwarding

This feature allows you to program your phone to automatically forward incoming messages to another mailbox. There are three types of forwarding: Immediate, Silent, and Delayed. They are described below:

- **Immediate Forwarding** - Caller is notified that the message will be forwarded.
- **Silent Forwarding** - Caller is not notified that the message will be forwarded.
- **Delayed Forwarding** - If a caller's message is not retrieved after a certain amount of time, the message will automatically be forwarded to another mailbox or telephone number.

- | | |
|---|---|
| 1 | From the main Voice Mail menu, press 4 to access Personal Options. |
| 2 | Press 5 to modify Forwarding Options. |

3 Select the applicable option below:

- To create a forwarding number, press **(2 NO)**.
- If you have already created a forwarding number, press **(2 NO)** to modify the number.
- To enable or disable Message Forwarding, press **(3 OFF)**.
- To change the forwarding type, press **(4 DEF)**.
 - Press **(1 DEF)** for Immediate Forwarding
 - Press **(2 NO)** for Silent Forwarding
 - Press **(3 DEF)** for Delayed Forwarding

4 Press **(*) (*)** to return to the main menu.

NOTE: You can only forward messages to Boost Mobile customers in your home market.

Time and Date Charts

Time and Date Charts can be referenced for specific tasks throughout Boost Mobile Voice Mail service.

24-hour Clock

Boost Mobile Voice Mail service uses a 24-hour clock:

NOTE: To compute the 24-hour clock for pm, add 1200.

Below is a list of hours translated into 24-hour time:

12-hour Clock	12:00 am	4:00 am	8:00 am	12:00 pm	4:00 pm	10:00 pm
24-hour Clock	0000	0400	0800	1200	1600	2200

Dates

All dates must have 4 digits in the MM/DD format (2 digits for the month and 2 digits for the day). January is 01, February is 02, etc. The first day of the month is 01, the second day of the month is 02, etc. For days of the week, Sunday is 1, Monday is 2, etc.

Boost Mobile Voice Mail Tree

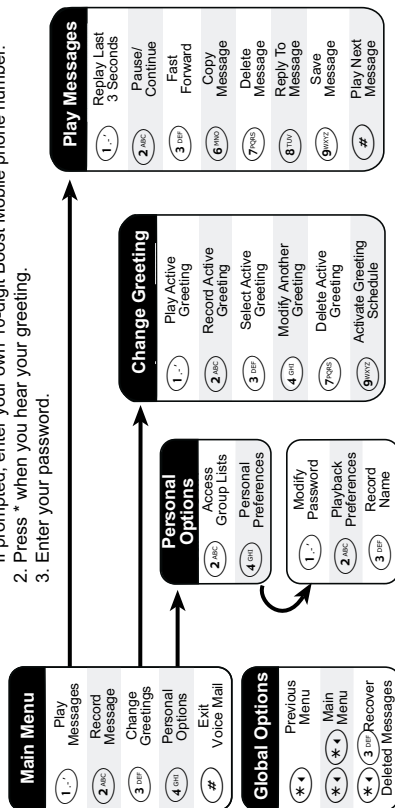

Boost Mobile Voice Mail Tree

To access Voice Mail:

From your own i55sr phone, follow the instructions in the beginning of this chapter.

From any other phone:

1. Dial your own 10-digit Boost Mobile phone number.
If prompted, enter your own 10-digit Boost Mobile phone number.
2. Press * when you hear your greeting.
3. Enter your password.

Messaging Services

Your *i55sr* phone offers two-way Text Messaging that helps keep you in touch with family and friends, regardless of your lifestyle demands. Text Messaging uses the Boost Wireless Web to provide immediate contact, even when you can't make or take a call. Boost Mobile two-way Text Messaging allows you to send, receive, and respond to text messages quickly and discreetly, at the push of a button.

Numeric Messaging allows numeric messages to be sent through Boost Mobile Voice Mail (see "Recording Your Active Greeting" on page 72).

The main topics covered in this section are:

Boost Mobile Text Messaging	Page 81
Numeric Messaging	Page 82
Message Center	Page 81

Boost Mobile Text Messaging

Your *i55sr* phone refers to two-way Text Messages as Net Alerts.

With Boost Mobile two-way Text Messaging, you can:

- Send and receive messages (up to 500 characters in length) with preset replies and respond to them at the touch of a button.
- Create and store your own frequently used responses that lets you send informative answers without keying in text.
- Send messages to one individual from your phone or contact several at once from any email system or boostmobile.com.
- Respond to messages when you're at a movie or in a noisy location.

To activate this service, contact Boost Customer Care at 1-888-BOOST-4U (1-888-266-7848) or dial 611 from your *i55sr* phone. For additional information on how to use this service, visit boostmobile.com.

Sending a Text Message

Boost Mobile two-way Text Messaging provides two choices for sending messages: Web Messaging or Email Messaging.

Web Messaging on boostmobile.com

Boost Mobile's Web Messaging enables you to send a message to yourself, someone else, or a group of Boost Mobile customers. For more information or to send a Web message, go to boostmobile.com and click on **Send a Message**.

Email Messaging

From any email account, type the 10-digit phone number of a Boost Mobile customer in the **To** field and add **@myboostmobile.com** (for example, 2135557777@myboostmobile.com). The entire message can be up to 500 characters.

Numeric Messaging

Numeric messaging is available through Boost Mobile Voice Mail. These messages can be displayed directly on your i55sr phone. To leave a numeric message:

- The caller must press “1” during your Voice Mail greeting.
- Once the caller presses “1,” only numeric messages can be sent.

Message Center

The Message Center enables you to access all messaging services through one screen.

To access the Message Center:

If MESG is one of your display options:

From the idle screen, press  under MESG.

If MESG is not one of your display options:

1 From the idle screen, press .

2 Press  to scroll to **Messages**.

3 Press  under SELECT.

The **Message Center** screen displays the number of messages you have in each message service — **Net Alert** (Boost Mobile two-way Text Messaging) and

other Wireless Web-based mail, **Voice Mail**, and **Text Msgs** (Numeric Messages).

To access any message service:

- 1 From the **Message Center** screen, press  to scroll to the message service you want to access.
- 2 Press  under the display option on the right. This option varies depending on the message service selected.

Notification of New Messages

When you receive a new message:

- **New Text Message** or **New Browser Message** will display on the screen.
- Your phone will alert you every 30 seconds until you press  under READ or  under EXIT.

Accessing New Messages

When you receive a message, you can view it immediately or later.

Viewing a Message Immediately

- 1 Press  under READ. The message displays.
- 2 If the message fills more than one screen, use  to scroll through the rest of the message.
- 3 Press  under SAVE to save the message.

Or,

Press  under DELETE to delete the message.

Viewing a Message Later

Press  under EXIT. The  icon will appear on the idle screen to remind you that you have a stored message.

Viewing Stored Messages

- | | |
|----------|---|
| 1 | In the Message Center screen, press  to scroll down to Text Msgs. The number of new messages and the total number of messages are displayed. |
| 2 | Press  under SELECT . The Text Msg Inbox screen appears. |
| 3 | Press  to scroll to the message you want to read and press  under READ . |
| 4 | If the message fills more than one screen, use  to scroll through the rest of the message. |
| 5 | Press  under SAVE to save the message.

Or,

Press  under DELETE to delete the message. |

Boost 2WAY

Boost 2WAY is a digital two-way radio feature that allows you to communicate with your friends all day long for a fraction of the cost of regular cellular calls.

NOTE: Boost 2WAY is only available in your local calling area.

This section includes everything you will need to know to take advantage of Boost 2WAY (digital two-way radio) service:

Private Call	Page 85
Call Alerts	Page 87

Private Call

There are several ways to reach an individual using Boost 2WAY:

- Enter the person's Private ID from the keypad.
- Select the person's Private ID from your Phonebook.
- Select the person's Private ID from your Recent Calls list.

NOTE: The Recent Calls list displays briefly after each Private Call.

Whether you dial the person's Private ID directly or use a number stored in your Phonebook or Recent Calls list, you must have the individual's Private ID to use Boost 2WAY. To learn how to store names and numbers, see "Phonebook" on page 35.

BOOST TIP: To find out your own Private ID, see "My Information" on page 19.

NOTE: When dialing or storing a Private ID, the asterisks must be entered as part of the Private ID in order to make a Boost 2WAY Private Call.

Making a Private Call from the Keypad

- | |
|--|
| 1 Enter the Private ID of the person you are trying to call. |
|--|

- | | |
|---|---|
| 2 | Press and hold the Boost 2WAY Push-To-Talk (PTT) button on the side of the phone to talk. Begin talking after the phone emits a chirping sound. |
| 3 | Release the Boost 2WAY PTT button to listen. |

Making a Private Call from the Phonebook

If you have stored a person's Private ID in your Phonebook (see "Adding Phonebook Entries" on page 39), you can use your Phonebook to make a Private Call to that person:

- | | |
|---|---|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to Phonebook . Press  under SELECT. |
| 3 | From the Phonebook screen, press  to scroll through the names until the desired name or Private ID is highlighted. (If the Private icon  appears to the right of the number, the number is the Private ID).

If more than one number is stored for an entry, press  until  displays. |
| 4 | Press and hold the Boost 2WAY PTT button on the side of the phone. Begin talking after the phone emits a chirping sound. |
| 5 | Release the Boost 2WAY PTT button to listen. |

Making a Private Call from the Recent Calls List

- | | |
|---|---|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to Recent Calls . Press  under SELECT. |
| 3 | From the Recent Calls screen, press  to scroll to the desired name or Private ID. If more than one number is stored for an entry, press  until the  displays. |

- | | |
|----------|--|
| 4 | Press and hold the Boost 2WAY PTT button on the side of the phone. Begin talking after the phone emits a chirping sound. |
| 5 | Release the Boost Mobile 2WAY PTT button to listen. |

For more information on the Recent Calls list, see “Recent Calls” on page 56.

Receiving a Private Call

When you receive a two-way call, your phone emits a chirping sound. **Private in Use** and the Private ID or the name of the caller (if stored in your Phonebook) displays on the screen.

- | | |
|----------|---|
| 1 | Wait for the caller to stop talking. |
| 2 | Press and hold the Boost 2WAY PTT button. Begin talking after the phone emits a chirping sound. |
| 3 | Release the Boost 2WAY PTT button to listen. |

Storing Private IDs

For information on how to store Private IDs to your Phonebook, see “Adding Phonebook Entries” on page 39.

For information on how to quickly store Private IDs, see “Storing Numbers and Private IDs Fast” on page 42.

Call Alerts

You can send a Call Alert, which lets recipients know that you would like to talk with them. When you send an alert, the recipient will receive a series of beeps and your name or Private ID will appear on the display.

Placing a Call Alert from the Keypad

- | | |
|---|--|
| 1 | Enter the Private ID of the person you want to call. Be sure to enter Area ID*Network ID*Member ID . |
| 2 | Press  under ALERT. The Ready to Alert screen displays. |
| 3 | Press and hold the Boost 2WAY PTT button until Alert Successful displays. The recipient's phone sounds the alert intermittently until the user of the phone answers, queues, or clears the alert. |

Placing a Call Alert from the Phonebook

- | | |
|---|---|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to Phonebook . Press  under SELECT. |
| 3 | From the Phonebook screen, press  to scroll to the Phonebook entry for the person you want to alert. If more than one number is stored for the entry, press  until  displays. |
| 4 | Press  under ALERT. The Ready to Alert screen appears. |
| 5 | Press and hold the Boost 2WAY PTT button until Alert Successful displays. The recipient's phone sounds the alert intermittently until the user of the phone answers, queues, or clears the alert. |

Ready to Alert Screen

Ready to Alert is used to confirm your request for the alert and to prompt you to push the Boost 2WAY PTT button:

- If you press the Boost 2WAY PTT button, the Call Alert is sent, and the phone displays the **Recent Calls** screen.
- For Call Alerts placed from the keypad, pressing  under CANCEL causes the phone to return to the dialing screen with the previously entered number displayed.
- For Call Alerts placed from the Phonebook, pressing  under CANCEL causes the phone to return to the **Phonebook** screen.
- If you do nothing, the phone will revert to the idle screen.

Receiving Call Alerts

When you receive a Call Alert, your phone emits a series of chirps and displays the name or number of the caller. You can answer, queue, or clear the Call Alert:

- To answer the Call Alert, press the Boost 2WAY PTT button and begin talking after the phone emits a chirping sound.
- To queue the Call Alert, press  under QUEUE.
- To clear the Call Alert, press  under CLEAR.

NOTE: Until you answer, queue or clear the Call Alert, you will not receive any additional phone or Private Calls.

BOOST TIP: You can turn down the Call Alert chirp volume by pressing the volume buttons on the side of your phone.

Call Alert Queue

Call Alert queuing enables you to save up to eight Call Alerts in a list, or queue. To store a Call Alert in the Call Alert Queue, press  under QUEUE when you receive an incoming Call Alert.

Accessing the Call Alert Queue

1	From the idle screen, press  .
2	Press  to scroll to Call Alert .
3	Press  under SELECT. The Call Alert Queue screen displays.

Viewing Call Alert Date and Time

To find out the date and time a Call Alert was received:

1	From the Call Alert Queue screen, press  to scroll to the desired Call Alert.
2	Press  to access the Call Alert Menu .
3	Press  to scroll to View .
4	Press  under SELECT.

Sorting Call Alerts

To sort your Call Alerts by the order they were received:

1	From the Call Alert Queue screen, press  to access the Call Alert Menu .
2	Press  to scroll to Sort By .
3	Press  under SELECT .
4	Press  to scroll to First on Top or Last on Top .
5	Press  under SELECT .

Responding to a Call Alert From the Queue

1	From the Call Alert Queue screen, press  to scroll to the Call Alert you want to respond to. You can respond by sending a Call Alert or placing a Private Call.
2	To send a Call Alert, press  under ALERT and then press the Boost 2WAY PTT button. Or, To place a Private Call, press the Boost 2WAY PTT button. The Call Alert will be removed from the queue.

Deleting a Call Alert From the Queue

To delete a Call Alert from the queue:

1	From the Call Alert Queue screen, press  to scroll to the entry you want to delete.
2	Press  to access the Call Alert Menu .
3	Press  to scroll to Delete .

4	Press  under SELECT.
5	When the confirmation screen appears, press  under YES to delete the entry.

To delete all Call Alerts from the queue:

1	From the Call Alert Queue screen, press  to access the Call Alert Menu .
2	Press  to scroll to Delete All .
3	Press  under SELECT.
4	When the confirmation screen appears, press  under YES to delete all Call Alerts.

Datebook

The Datebook is a calendar in your phone that enables you to schedule and organize events. Schedules can be created and viewed for specific days, and reminder alarms can be set so you never miss important events.

You can view upcoming events by week or by day. The Datebook stores and manages 250 events over a 13-month period (12 months ahead and 1 month back).

NOTE: The time and date format and the year used in Datebook can be set by you. Before using Datebook for the first time, ensure that the current year is correct. See “Initial Setup” on page 117 for more information.

This section includes:

Datebook Icons	Page 94
Viewing Your Datebook	Page 94
About Datebook Events	Page 96
Adding New Events	Page 96
Editing Events	Page 99
Deleting Events	Page 99
Datebook Event Reminders	Page 100
Customizing Datebook Setup	Page 100

Datebook Icons

There are several icons commonly used in the Datebook application:

Symbol	Description
•	Event without a start/end time
>	More options are available
↻	Recurring Appointment
🔔	Datebook Alarm
→	Used to move through fields when setting a time and date

Viewing Your Datebook

To access your Datebook:

1	From the idle screen, press  .
2	Press  to scroll to Datebook .
3	Press  under SELECT.

Information in your Datebook can be viewed in three ways: by the week, the day, or the event.

This information is structured hierarchically. When you access the Datebook, it displays the current week. You can select a day to view and display the events of that day. When the events of a day are displayed, you can select an event to view and display details of that event.

Viewing a Week

When you access your Datebook, the current week is displayed. You can scroll to other weeks by pressing .

The dates of the displayed week appear at the top of the text area of your phone's screen.

Below the dates are letters indicating the days of the week. When you access your Datebook, the current day is highlighted. You can scroll to other days by pressing .

Below each letter is a 12-hour time window for each day. Scheduled events are shown within the time window in black. Events scheduled outside the 12-hour time window will display in the day view but not in the week view.

A small bar on top of the time window indicates an event on that day that does not have a time of day associated with it, such as a birthday.

Viewing a Day

To view a day in your Datebook:

- | | |
|---|--|
| 1 | With a week displayed, select the day you want to view by pressing  until the letter for that day is highlighted. |
| 2 | Press  under VIEW. |

The day and date appear at the top of the text display area. Events for the day selected are listed by time. Events without times are displayed at the top of the list with a bullet to the left of them.

Viewing Event Details

To view the details of an event:

- | | |
|---|---|
| 1 | Select and view the day containing the event you want to view. |
| 2 | Press  to scroll to the event. |
| 3 | Press  under VIEW. |

This displays event details such as day of week, time, title, duration, alarm time, and repeat cycle. For more information about events, see “About Datebook Events” on page 96.

Viewing Today

You can easily go to the current day when viewing your Datebook:

- 1 While viewing any week, day, or event, press . This displays the **Datebook Menu** with **Go to Today** highlighted.
- 2 Press  under SELECT.

About Datebook Events

Each Datebook event may contain the following information:

- The title you assign to the event. You can enter a title using the phone's alphanumeric keypad or choose from a list of commonly used titles. A title is required for every event (maximum of 128 characters).
- Additional text following the event's title.
- The start time and duration of the event.
- The date of the event.
- An option to repeat the event in your Datebook.
- An alarm to notify you of the event before it begins.
- The Style you want your phone to use when the event occurs. See "Styles" on page 125.

Adding New Events

To add a Datebook event:

- 1 Access the **Event Form** screen:
While viewing a week in the Datebook, press  to access the **Datebook Menu**. Press  to scroll to **New**. Press  under SELECT.
Or,
While viewing a day, press  to scroll to **[New Event]**. Press  under SELECT.
The **Event Form** screen displays with the **Title** field highlighted.
- 2 With the **Title** field highlighted, press  under CHANGE to access the **Title** screen.

3 Assign a title to the event:

Type the title using the alphanumeric keypad. See “Using T9® Text Input” on page 20 for information about entering text into this field.

Or,

Press  under **BROWSE** to choose from a list of commonly used event titles. Press  to scroll to the title you want and press  under **SELECT**.

You can also enter a description of the appointment or any other text.

When you are finished, press  under **OK**.

The **Event Form** screen returns with the **Start** field highlighted.

4 If you want to assign a time of day to the event:

With the **Start** field highlighted, press  under **CHANGE**.

From the **Start** screen, enter the time the event will begin.

Type in the start time, or press  to scroll through the hours, minutes, and am, pm, or 24 hour clock. Press  or press  under  to move through the fields.

Press  under **DONE**.

The **Event Form** screen returns with the **Duration** field highlighted.

5 After you have assigned a start time to the event, you can specify the duration of the event. The default duration is one hour. To assign a different duration:

With the **Duration** field highlighted, press  under **CHANGE**.

From the **Duration** screen, press  to scroll to the desired duration. If you select **None**, the event will have a duration of zero minutes.

Press  under **SELECT**.

The **Event Form** screen returns with the **StartDate** field highlighted.

- 6** The default date assigned to an event is the day that was highlighted when you accessed the **Event Form** screen to add the event. To assign a different date:

With the **StartDate** field highlighted, press  under CHANGE.

From the **StartDate** screen, enter the date of the event:

Type in the date, or press  to scroll through the months, days, and years. Press  or press  under → to move through the fields.

Press  under DONE.

The **Event Form** screen returns with the **Repeat** field highlighted.

- 7** If you want the event to recur in your Datebook, assign a repeat cycle to it:

With the **Repeat** field highlighted, press  under CHANGE.

From the **Repeat** screen, press  to scroll to the desired repeat cycle. Press  under SELECT.

(If your appointment recurs more than one day a week, scroll to **Multiple Days** and select as many days as apply. Then press  under DONE.)

The **Event Form** screen returns with the **RepeatEnd** field highlighted.

NOTE: When Repeat is set to none or yearly, it will not be possible to access the RepeatEnd field.

Press  under CHANGE and enter the date on which you want the event to stop repeating. When you have finished, press  under DONE.

The **Event Form** screen returns with the **Alarm** field highlighted.

- 8** If you want to set an alarm to remind you that the event is approaching:

With the **Alarm** field highlighted, press  under CHANGE.

From the **Alarm** screen, press  to scroll to the desired alarm option (**5 min before**, **1 hour before**, etc.).

Press  under SELECT.

- 9 If you want your phone to change to a style you have defined when the event occurs (see “Styles” on page 125):

With the **Styles** field highlighted, press  under CHANGE.

Press  under CHANGE.

From the **Style** screen, press  to scroll to the desired style.

Press  under SELECT.

- 10 When you have entered all the desired information about the event, press  under DONE.

Editing Events

- 1 If you are viewing the event:

Press  under EDIT.

Or,

If you are viewing the day containing the event:

Press  to scroll to the event you want to edit. Press  to display the **Datebook Menu**. Press  to scroll to **Edit** and then press  under SELECT.

- 2 Follow the applicable instructions on “Adding New Events” on page 96 to edit the various fields.

Deleting Events

- 1 View the day containing the event and press  to scroll to the event you want to delete.

Or,

View the details of the event you want to delete.

- 2 Press . The **Datebook Menu** displays.

- 3 Press  to scroll to **Delete** and press  under SELECT.

- 4 If the event is a recurring event, the **Delete Event** screen appears:
- To delete only the occurrence of the event you select in step 1, leave **This Event Only** highlighted.
 - To delete all occurrences of the event, press  to highlight **Repeat Events**.
- Press  under SELECT.
- 5 If the event is a recurring event, a confirmation screen appears. Press  under YES to confirm.

Datebook Event Reminders

If you have set an alarm to remind you that a Datebook event is approaching, your phone sounds an audible alarm and displays a reminder.

NOTE: You must have the Time and Date display turned on to receive event reminders. This is the default setting.

When a Datebook event reminder appears on the screen:

Press  under VIEW to view more information about the Datebook event.

Or,

Press  under EXIT to dismiss the event reminder.

Customizing Datebook Setup

Datebook allows you to customize some of its set up features:

- **DailyBegin** — sets the beginning time of the 12-hour day your Datebook displays when you are viewing a week. The default is 7:00 am.
- **Reminder** — controls the behavior of alarms you have set in Datebook:
 - **Active Only** sets Datebook to ignore alarms that occur when your phone is powered off. This is the default setting.
 - **Delayed If Off** sets Datebook to delay alarms that occur when your phone is powered off until your phone is next powered on.
- **Weekday** — sets the first day of the week your Datebook displays when you are viewing a week. The default is Sunday.

- **DeleteAfter** — controls how long your Datebook waits to delete an event after it has occurred. The default is four weeks.

To customize your Datebook set up:

1	While viewing a week in the Datebook, press  to access the Datebook Menu .
----------	--

2	Press  to scroll to Setup and then press  under SELECT .
----------	--

3	Press  to scroll to any of the set-up features.
----------	--

Press  under **CHANGE**.

Use the screens that appear to make your changes.

Memo

The Memo application provides you with a place to store a numeric note (for example, a phone number) in your *i55sr* phone.

This section includes:

Adding a New Memo	Page 103
Viewing a Memo	Page 103
Editing a Memo	Page 104
Deleting a Memo	Page 104

Adding a New Memo

You can add a memo from the idle screen or while on an active call.

1	Press  .
2	Press  to scroll to Memo .
3	Press  under SELECT. The Memo screen displays.
4	Type your numeric memo using the phone's keypad.
5	Press  under STORE.

NOTE: Only one memo can be stored.

Viewing a Memo

1	From the idle screen, press  .
2	Press  to scroll to Memo .

- | | |
|---|--|
| 3 | Press  under SELECT. |
| 4 | To call this number, press  . |

Editing a Memo

- | | |
|---|---|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to Memo . |
| 3 | Press  under SELECT. |
| 4 | Type the new number.

You can delete a digit by pressing  under DELETE. To delete all the digits, press and hold  under DELETE. |
| 5 | Press  under STORE. |

Deleting a Memo

- | | |
|---|--|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to Memo . |
| 3 | Press  under SELECT. |
| 4 | Press and hold  under DELETE. |
| 5 | Press  under STORE. |

Boost Wireless Web

Boost Wireless Web is a service that lets you access Internet based information directly from the screen of your WAP (Wireless Application Protocol) enabled phone. In the palm of your hand, you can access the Boost Wireless Web Services to:

- Send and receive email
- Check surf and snow reports, and sports scores
- Find your nearest movie location and show times
- Check your daily horoscope
- Make CD purchases
- and much more

Your *i55sr* phone will be automatically set up for Boost Wireless Web as soon as you activate your account. Please refer to boostmobile.com for pricing on Boost Wireless Web Services.

If you decide Boost Wireless Web is not for you, simply call Boost Customer Care and ask your Care Representative to cancel the Boost Wireless Web service.

The main topics covered in this section are:

Boost Wireless Web Navigation Keys	Page 105
Starting the Microbrowser	Page 106

Boost Wireless Web Navigation Keys

You can navigate within the phone's microbrowser by using the following keys:

Home: Press  to return to your home page.

Back: Press  to return to a previous screen.

Scroll: Arrows to the left of your phone's display screen () indicate that additional text can be viewed. Press  to scroll one line at a time, or press and hold to scroll one page at a time. Repeat to scroll further.

Starting the Microbrowser

Just as you use Netscape Navigator® or Microsoft® Internet Explorer to browse the Web from your desktop, the microbrowser contained in your phone allows you to explore and use a variety of Internet services. To begin using the Boost Wireless Web:

1 From the idle screen, press  to access the **Main Menu**.

2 Press  to scroll to **Web**.

3 Press  under **SELECT**.

4 Your home page displays.

NOTE: The first time you access **Web**, you will be asked to enable security to ensure your information remains private and secure.

Press  under **Yes**. The phone will display: **Generating..., Computing..., Sending))))))**.

You may be asked to (re)enable security as Boost Mobile adds new services or upon your return to the U.S. after traveling.

When transmitting highly personal or sensitive data, such as a credit card number, you will see the **Secure Data icon** . This icon indicates that the data is encrypted during transmission.

5 Scroll to highlight the service you wish to access and press  under **OK**, or press the number shown to the left of your desired selection to automatically jump to that service. Press  to return to the previous screen.

To return to the home page from anywhere within the various menus and sub-menus, press .

6 To exit the browser, press  until the idle screen displays.

Or,

Press and hold . The **Browser Menu** screen displays with **Exit Browser** highlighted. Press  under **OK**. When you re-enter **Web**, you will enter on the page from which you exited.

Java Apps

The Java Apps (Games) feature of your phone runs applications written in Java programming language. Your phone comes with pre-loaded Java Games.

NOTE: In order to run a Java application, you may first need to install the application. See “Installing Java Apps” on page 107.

This section includes:

Accessing Java Apps Menu	Page 107
Installing Java Apps	Page 107
Running Java Apps	Page 108

Accessing Java Apps Menu

To access the Java Apps menu:

- 1 From the idle screen, press .
- 2 Press  to scroll to **Java Apps**.
- 3 Press  under SELECT.

The **Java Apps** menu displays all your Java applications.

Installing Java Apps

To install Java applications on your phone:

- 1 From the **Java Apps** screen, press  to scroll to the desired application.
- 2 To determine whether the application needs to be installed, look at the display options on the screen.
If the display option is RUN or SELECT, the application is already installed and ready to run. See “Running Java Apps” on page 108.
If the display option is INSTALL, press  under INSTALL to install the application.

- 3 The screen displays a series of installation steps. A check mark appears as each step is completed. This may take several minutes.

When your phone has finished installing the application, press  under DONE.

Running Java Apps

To run an application:

- 1 From the **Java Apps** screen, press  to scroll to the application you want to run.

- 2 Press  under RUN or SELECT.

NOTE: If you receive an incoming phone call, the Java application will be suspended.

To suspend a running application:

Press .

To resume a suspended application:

Press  under RESUME.

To stop a running application:

Press  and then press  under EXIT.

For the latest updates on this feature, please visit boostmobile.com.

Customizing the i55sr Phone

You can customize your *i55sr* phone to fit the way you want to use it.

This section includes:

Settings	Page 109
Styles	Page 125
Shortcuts	Page 131

Settings

The phone's Settings menu enables you to control many of the phone's features and functions, including display properties, message handling, and security features.

NOTE: Changes to some of your phone's Settings will not take effect if a style is active. Styles must be set to Off.

To access the Settings menu:

1	From the idle screen, press  .
2	Press  to scroll to Settings .
3	Press  under SELECT.

From the **Settings** screen, you can access these Settings options:

- **Ring/Vibe** — controls how your phone rings or vibrates when you receive calls and messages
- **Phone Setup** — sets call-answering features and sets your network ID
- **In Call Setup** — sets call timer and message notification
- **Security** — sets security features including phone lock, keypad lock, and SIM PIN
- **Personalize** — controls which features are most accessible when you turn on your phone

- **Initial Setup** — sets a variety of display features including the language displayed, the size of the characters on the text screen, the screen contrast, time and date formats, current year, backlight, status light, and scrolling. Also turns auto redial on or off and sets baud rate
- **VoiceVolume** — sets the volume of your phone's earpiece and speaker
- **Service Status** — shows the status of your phone's services

To access any of these options:

- | | |
|---|--|
| 1 | From the Settings screen, press  to scroll to the option you want to access. |
| 2 | Press  under SELECT. |

Many of these options have other options within them. Press  to scroll through the lists of options, and press  to select and modify options and the features, according to the instructions on your phone's screen. For some options, you can also press  to select sub-options.

In screens that show lists of options for a setting, a check mark to the left of the option indicates the current option for the setting.

Ring/Vibe

Ring/Vibe enables you to control how your phone rings and vibrates when you receive calls and messages. You can set ring volume, choose ring styles, and use the Vibracall[®] alert feature which enables you to set your phone to alert you to calls and messages by vibrating.

Main Options

Ring/Vibe provides these main options:

- **Ringer Vol** — sets ring volume
- **Keypad Vol** — sets volume of sounds associated with keypad actions
- **Mail Vol** — sets volume of Text Message, Voice Mail, and Net Alert notifications
- **Java/Data Vol** — sets data or Java application volume
- **Headset** — choosing the **HdsetOnly** option prevents sound from being emitted from the phone's speaker when the headset is being used

- **VibeAll** — choosing **On** sets the phone to vibrate for all calls, messages, and alerts; choosing **Off** enables you to set the type of notification for each of these features

Ring Style and Notification Type

When you set **VibeAll** to **On**, your phone vibrates to notify you of all types of calls, messages, and alerts.

When you set **VibeAll** to **Off**, the following features display after **VibeAll** on the **Ring/Vibrate** screen, enabling you to set notification options for each:

- **Line 1** — sets the ring style and type of notification for calls on Line 1
- **Pvt** — sets type of notification for Private Calls
- **Call Alert** — sets the ring style and type of notification for Call Alerts
- **Text Msgs** — sets type of notification for Text Messages
- **Reminder** — sets type of notification for Datebook reminder alarms
- **Voice Mail** — sets type of notification for Voice Mail messages
- **Net Alert** — sets type of notification for Net Alert messages

To set **VibeAll** to **Off** or **On**:

1	From the Ring/Vibrate screen, press  to scroll to VibeAll .
2	Press  under CHANGE.
3	Press  to scroll to Off or On .
4	Press  under SELECT.

The following icons appear on your display screen to indicate the options you have chosen:

Icon	Indicates...
	Vibrate All - phone is set to vibrate when you receive all types of calls, messages, and alerts; the VibeAll option is On .
	Vibrate On - phone is set to vibrate when you receive phone calls.
	Vibrate Then Ring - phone is set to vibrate and then ring when you receive phone calls.
	Silent - phone is set not to ring or vibrate.

Ring Styles

When you set a ring style, you can choose from any of nine pre-set ring styles.

To set a ring style:

1	From the Ring/Vibrate screen, ensure that VibeAll is set to Off . Then press  to scroll to any of the features that allow you to set a ringer style: Line1 or Call Alert .
2	Press  under SELECT.
3	With the Style field highlighted, press  under CHANGE.
4	Press  to scroll to the ring style you want to assign to the feature.
5	To assign the ring style, press  under SELECT.

BOOST TIP: To hear the ring style you have selected, press the volume control buttons on the side of your phone.

Notification Types

When you set a notification type, you have these options:

- **Ring** — the phone rings to notify you
- **Vibe** — the phone vibrates to notify you
- **Vibe/Ring** — the phone vibrates and then rings to notify you
- **Silent** — the phone does not ring or vibrate to notify you

To set a notification type:

1	From the Ring/Vibrate screen, ensure that VibeAll is set to Off . Then press  to scroll to any of the features on the Ring/Vibrate screen after VibeAll .
2	Press  under SELECT .
3	With the Type field highlighted, press  under CHANGE .
4	Press  to scroll to the notification type you want to assign to the feature.
5	To assign the notification type, press  under SELECT .

Phone Setup

Phone Setup sets some basic phone features. Access Phone Setup to set the following options:

- **AutoAns** — sets your phone to automatically answer an incoming call after a specified number of rings. When this feature is turned on, the phone answers by connecting you to the caller; it does not send the call to Voice Mail, unless you are out of coverage or on another call
- **Network ID** — enables you to set the phone's network IDs under the direction of a Boost Customer Care Representative

In Call Setup

In Call Setup sets the in-call timer and message notification.

NOTE: These features affect phone calls only, not Private Calls.

- The **In Call Timer** option turns the following features on and off:
 - **Display** — the duration of each call displays on the phone's screen when the call ends
 - **Minute Beep** — an audible beep occurs every minute of an active call at the 50 second mark
- The **Notifications** option controls message notification during calls:
 - **Receive All** — notifies you of all types of messages during calls
 - **Msg Mail Only** — notifies you of mail messages only; all other types of message notifications are delayed until the call has ended
 - **Delay All** — delays notification of all messages until the call has ended

Security

Security allows you to set security features:

- **Phone Lock** — sets an optional code that locks your phone
- **Keypad Lock** — displays instructions for locking and unlocking your phone's keypad
- **SIM PIN** — enables and disables your phone's SIM PIN security feature
- **New Passwords** — enables you to change your phone's unlock code, security code, and SIM PIN
- **Master Reset** — allows Boost Customer Care to reset your service in the event of a security or provisioning problem

Using Phone Lock

The Phone Lock feature enables you to prevent your phone from being used unless an Unlock code is typed into the keypad.

The Unlock code is required to enable the phone lock feature, to unlock the phone, and to set a new Unlock code. Your default Unlock code is 0000.

Phone lock provides two options for locking the phone:

- **Lock Now** locks the phone immediately after you set the option.
- **Auto Lock** locks the phone the next time the phone is powered on.

Setting Keypad Lock

The *i55sr* phone includes a keypad lock feature that enables you to lock the phone's keypad to avoid inadvertently pressing or placing calls. See “Keypad Lock” on page 16 for more information.

Enabling and Disabling SIM PIN

The SIM PIN option enables and disables the feature that requires a SIM PIN code to be typed into the phone to access the information on the SIM card and to make or receive calls. See “SIM Card Personal Identification Number (PIN)” on page 11 for more information.

Setting New Passwords

The New Passwords option enables you to set three types of passwords that control access to your phone:

- **Unlock Code** — This code is used to control access to the phone using Phone Lock. It is also required to access the Master Clear and Feature Reset features. If you want to use any of these features, your default Unlock code is 0000.
- **Security Code** — This code is used to access the Master Reset feature under the direction of a Boost Customer Care Representative. It can also be used to override your Unlock code under the direction of a Boost Customer Care Representative.
- **SIM PIN** — This code is used to access the information on your SIM card and to make or receive calls. When you get your phone, your SIM PIN is 0000. You should change this to a SIM PIN known only to you as soon as you get your phone. For information on changing your SIM PIN, see “Changing the PIN” on page 13.

Using Master Reset

The Master Reset option is provided for use only under the direction of a Boost Customer Care Representative. It resets your service.

Personalize

Personalize contains three options that control which major features are easiest to access when you turn on your phone:

- **Main Menu** — changes the order of the items on your main menu

- **Keys** — controls which main menu items appear above the two option keys on the idle screen
- **Power Up App** — sets any of the programs on the main menu to run when you turn on your phone

Reordering Main Menu

1	From the Personalize screen with Main Menu highlighted, press  under SELECT to access the Menu Options screen.
2	Press  to highlight the Reorder Menu screen and press  under SELECT.
3	Press  to scroll to the main menu option you want to move
4	Press  under GRAB.
5	Press  to move the option up or down in the list.
6	When the item is where you would like it to appear in the main menu, press  under INSERT.
7	Repeat step 2 through step 5 for all main menu items you want to move.
8	Press  under DONE.

Changing Idle Screen Options

Two options from the main menu always appear on your idle screen above the left and right option keys. Each option can be accessed by pressing the corresponding option key. You can assign any main menu option you want to the option keys.

1	From the Personalize screen, press  to scroll to Keys .
2	Press  under SELECT. The Keys screen shows the option assigned to each option key (Left and Right).
3	To change the option assigned to the left option key, press  under CHANGE while Left is highlighted.
4	Press  to scroll to the option you want to assign to the left option key.

5 Press  under SELECT.

6 To change the option assigned to the right option key, press  to highlight **Right** and press  under CHANGE. Repeat steps 4 and 5 for the right option key.

Changing Power-Up Program

Your phone is set to display the idle screen when it is powered on. You can set the phone to display the main screen of any main menu option when it is powered on.

1 From the **Personalize** screen, press  to scroll to **Power Up App**.

2 Press  under SELECT. The **Power Up App** screen shows the name of the program or screen that currently appears when the phone is powered on.

3 Press  under CHANGE.

4 Press  to scroll to the option you want to appear when the phone is powered on.

5 Press  under SELECT.

NOTE: Datebook notifications display only from the idle screen. See “Datebook” on page 93.

Initial Setup

Initial Setup enables you to control a variety of your phone’s features that you may want to modify when you first get your phone:

- **Time/Date Format** — sets the format in which the time and date display on your phone
- **Year** — sets the current year

NOTE: Changing the current year may affect stored Datebook events. Datebook stores events 12 months ahead of and one month prior to the current date. Events outside this range will be deleted. See “Datebook” on page 93 for more information.

- **Auto Redial** — turns the automatic redial feature on and off
- **Backlight** — controls how long your phone's backlight stays on
- **Sensor** - controls the photosensor to activate the backlight when your phone is in poor lighting conditions
- **Status Light** — controls whether the status light is on when the phone is on
- **Display** — controls the size of the text in the text display area
- **Contrast** — sets the display contrast lighter or darker
- **Scroll** — sets how you can scroll lists and menus
- **Language** — sets the language that your phone displays
- **Master Clear** — returns all phone's settings to their original factory defaults and erases all stored lists. Use only under the direction of a Boost Customer Care Representative
- **Feature Reset** — returns all settings to their original defaults. Use only under the direction of a Boost Customer Care Representative
- **Baud Rate** — sets the baud rate at which your phone communicates with a laptop computer, PC, or similar device
- **TTY Setup** — sets TTY options. By default, your phone is set to function with a TTY device
- **TTY Baud Rate** — sets the baud rate at which your phone communicates when connected to a TTY device
- **Alert Timeout** — controls the amount of time the Call Alert tone sounds
- **Return to Home** — controls how long the Recent Calls screen displays before returning to the idle screen

Changing Time and Date Format

Your phone displays times in 12-hour-clock format (12:00 am through 11:59 pm) or 24-hour-clock format (0:00 through 23:59). It displays dates in month/day format or day/month format.

NOTE: If you turn the time and date display off, no times are associated with calls on your Recent Calls list, and the alarm feature of your Datebook is disabled.

To set the time and date format, or turn time and date display on or off:

- 1 Press , then scroll to **Settings**. Press  under **SELECT**. Press  to scroll to **Initial Setup**. Press  under **SELECT**.
- 2 From the **Initial Setup** screen with **Time/Date Format** highlighted, press  under **SELECT** to access the **Time/Date Format** screen.
- 3 To change the time format:

With **Time Format** highlighted, press  under **CHANGE** to access the **Time Format** screen.

Press  to highlight the time format you want.

Press  under **SELECT**.
- 4 To change the date format:

Press  to highlight **Date Format**, and press  under **CHANGE** to access the **Date Format** screen.

Press  to highlight the date format you want.

Press  under **SELECT**.
- 5 To turn the time and date format on or off:

Press  to highlight **Display**, and press  under **CHANGE** to access the **Display** screen.

Press  to choose **Off** or **On**.

Press  under **SELECT**.

Setting Auto Redial

When Auto Redial is set to **On**, if you receive a **System Busy, Try Later** message while making a call, the phone will redial the number automatically. You will hear a ring-back tone when a successful call is placed.

When Auto Redial is set to **Off**, you must press and hold  to redial the last number dialed.

Setting Backlight Timer

The backlight illuminates the keypad and display when you receive or make calls. You can set the amount of time that the backlight stays on to 5, 10, 20, or 30 seconds, or set it to stay on continuously or stay off at all times.

1	Press  , then scroll to Settings . Press  under SELECT. Press  to scroll to Initial Setup . Press  under SELECT.
2	From the Initial Setup screen, press  to scroll to Backlight .
3	Press  under CHANGE.
4	Press  to scroll to the desired backlight option.
5	Press  under SELECT.

IMPORTANT: Setting the backlight to stay on continuously may degrade backlight brightness over time.

Setting Photosensor

To conserve battery power, the photosensor will disable the backlight when you are in good lighting conditions. To force the backlight to come on every time a key is pressed, turn the photosensor off.

NOTE: Turning the Photosensor OFF, which forces the backlight to come on every time a key is pressed, will drain your battery power.

1	From the Initial Setup screen, press  to scroll to Sensor .
2	Press  under CHANGE.
3	Press  to scroll to the desired option.
4	Press  under SELECT.

Adjusting Status Light

The status light is part of your phone's power button. It illuminates when the phone is on. You can turn the status light feature on or off from the **Initial Setup** screen.

Setting Text Display

You can set your phone's text display area to show more text using smaller characters or less text using larger characters. The size and amount of text displayed depends on the view selected:

- **Standard view** — five lines of text, 14 characters per line
- **Compressed view** — seven lines of text, 18 characters per line
- **Zoom view** — four lines of text, 11 characters per line

To set the text display view:

1	From the Initial Setup screen, press  to scroll to Display .
2	Press  under CHANGE .
3	Press  to scroll to the desired display option.
4	Press  under SELECT .

NOTE: Unless otherwise noted, illustrations in this User's Guide depict **Standard view**.

Setting Contrast

You can set the contrast of your phone's display to be lighter or darker. Use  to increase or decrease the contrast.

Setting Scrolling

You can set your phone to scroll through menus and lists in either of two ways:

- **Up/Down** — when you reach the bottom or top of a list or menu, scrolling stops until you scroll in the other direction
- **Wrap Around** — when you reach the bottom or top of a list or menu, scrolling “wraps” around and continues at the other end of the list or menu

You can set the scrolling style from the **Initial Setup** screen, using the **Scroll** option.

Changing Display Language

You can customize the phone to display menus in English, Spanish, French, or Portuguese. The default language is English.

To change the display language:

1	From the Initial Setup screen, press  to scroll to Language .
2	Press  under CHANGE .
3	Press  to scroll to the language you want your phone to display.
4	Press  under SELECT .

Master Clear

Master Clear returns all your phone's settings to their original factory defaults and erases all stored lists. Use under the direction of a Boost Customer Care Representative.

Feature Reset

Feature Reset returns all your phone's settings to their original defaults. Use under the direction of a Boost Customer Care Representative.

Setting Baud Rate

You can set your phone's baud rate from the **Initial Setup** screen. Scroll to the **Baud Rate** option you want or choose **Auto** to set your phone to automatically choose the appropriate baud rate.

Setting TTY Mode

TTY Setup enables you to set your options for using your phone with a teletypewriter (TTY) device. By default, your phone is set to function with a TTY device in TTY mode.

Your phone supports the following TTY modes:

- **TTY** — for calls in which you type and read text on your TTY device
- **VCO** (Voice-Carry-Over) — for calls in which you speak into your phone and read text replies on your TTY device
- **HCO** (Hearing-Carry-Over) — for calls in which you type text on your TTY device and listen to voice replies on your phone's speaker

You can set your TTY mode using your phone's **Settings** menu at any time, or by issuing commands from your TTY device while on an active call.

To set your phone's TTY mode using your phone's **Settings** menu:

1	From the Initial Setup screen, press  to scroll to TTY Setup .
2	Press  under CHANGE .
3	Press  to scroll to the desired TTY mode; Off , TTY , VCO , or HCO .
4	Press  under SELECT .

To set your phone's TTY mode from your TTY device, issue one of the following commands while on an active call:

- “VCO please” — to select VCO mode
- “HCO please” — to select HCO mode
- “HCO off please” — to turn off HCO mode.

IMPORTANT: When you are using HCO, the sound coming from your phone speaker may be uncomfortably loud. Use caution when putting the phone to your ear. (For information on setting your phone's speaker volume, see “Voice Volume” on page 125.)

NOTE: TTY device manufacturer's proprietary feature such as Turbo-Code, High-Speed, and Interruption are not supported by your phone. These features must be turned off or disabled to use your TTY device with your phone.

Setting TTY Baud Rate

By default, your phone's TTY baud rate is set to 45.45, the baud rate required for TTY calls within the U.S. To make calls outside the U.S., set your TTY baud rate to 50.0.

To change the TTY baud rate:

1	From the Initial Setup screen, press  to scroll to TTY Baud .
2	Press  under CHANGE.
3	Press  to scroll to the baud rate for your location.
4	Press  under SELECT.

Alert Timeout

Alert timeout controls the amount of time the Call Alert tone sounds. The display continues to show the alert information even though the Call Alert tone has stopped.

You can set your phone's alert timeout rules from the **Initial Setup** screen. Scroll to the **Alert Timeout** option and then choose the desired interval. (No Alert Tone, 5 Minutes, 30 Minutes, 1 Hour, or Continuous.)

Return to Home

You can control the amount of time that the **Recent Calls** screen displays after a call. You can set different time-outs (30 seconds, 1 minute, 5 minutes, or 10 minutes) for phone calls and Boost 2WAY calls:

- **After Phone** — Set the time that the recent calls screen displays after a phone call
- **After Prvt** — Set the time that the recent calls screen displays after a private call

To set the recent calls timeout:

1	From the Initial Setup screen, press  to scroll to Return to Home .
2	Press  under SELECT.

3	The Return to Home screen displays with After Phone selected. To select After Prvt press  .
4	Press  under CHANGE.
5	Press  to scroll to the desired display option.
6	Press  under SELECT.

Voice Volume

Voice Volume sets the volume of the sound coming from your phone's earpiece or speaker:

1	From the Voice Volume screen, highlight Earpiece Vol to set the earpiece volume, or press  to scroll to Speaker Vol to set the speaker volume.
2	Press  under CHANGE.
3	To select a volume level: Press  to raise or lower the volume setting. Or, Press the volume control buttons on the side of your phone.
4	Press  under OK.

Service Status

The Service Status screen shows the status of your Boost Mobile services. This screen is for information only; no options can be set.

Styles

NOTE: Your **i55sr** phone may not be activated for this feature. Please refer to your **Boost Mobile Multimedia CD User's Guide**.

The Styles feature enables you to save a group of settings for call and message notification, screen display, and call answering features. You save your selections as a “style” and access them at any time.

Your phone comes with pre-set styles. You can use these pre-set styles, edit them or create your own styles.

Each style contains the following settings:

- **Ring/Vibe** — controls how your phone rings and vibrates when you receive calls and other messages. See “Ring/Vibe” on page 110
- **Backlight** — controls how long your phone’s backlight stays on. See “Setting Backlight Timer” on page 120
- **Display** — controls the size of the text on the full-sized display screen. See “Setting Text Display” on page 121
- **Call Filter** — enables you to set your phone to not ring or vibrate when you receive some or all calls, messages, and alerts. See “Setting Call Filtering” on page 129
- **Auto Answer** — sets your phone to automatically answer an incoming call after a specified number of rings. When this feature is turned on, the phone answers by connecting you to the caller; it does not send the call to Voice Mail

Using the Styles feature, you can create styles, edit styles, view a style’s properties, delete styles, activate any style you have created, or turn off the active style.

To access the **Styles Menu**:

1	From the idle screen, press  .
2	Press  to scroll to Styles .
3	Press  under SELECT .

From the **Styles Menu**, you can:

- activate a style or turn off the currently active style
- create a new style
- access the **Styles Action** menu for more Styles functions

Creating a Style

When you create a style, you give it a name and set the features of that style. The name of the style then appears on the Styles Menu.

To create a style:

1	From the Styles Menu screen, press  to scroll to [New Style] .
2	Press  under SELECT .
3	Assign a name to the style you are creating: In the Name screen, use the alphanumeric keypad to enter the name you want to give the style. As you type, you can delete a letter by pressing  under DELETE . To create a space, press  once. Press  under OK .
4	In the New screen, press  to scroll through the settings for each style option.
5	To change any style option: Press  to highlight the option. Press  under CHANGE or SELECT . Use the screens that appear to make your changes.
6	When all the style options have the settings you want, press  under DONE .

Editing a Style

To change the settings of a style:

1	From the Styles Menu screen, press  to scroll to the name of the style you want to edit.
2	Press  to access the Styles Action menu.

- | | |
|----------|--|
| 3 | Press  to scroll to Edit and press  under SELECT . |
| 4 | To change any style option:

Press  to highlight the option.

Press  under CHANGE or SELECT .

Use the screens that appear to make your changes. |
| 5 | When all the style options have the settings you want, press  under DONE . |

Activating a Style

When you access the **Styles Menu**, a check mark appears to the left of the name of the style that is currently active on your phone. If no style is active, the check mark appears next to **Off**. The active style name will appear on the idle screen.

To activate a style:

- | | |
|----------|--|
| 1 | From the Styles Menu screen, press  to scroll to the name of the style you want to activate. |
| 2 | Press  under SELECT . |

The style immediately becomes active on your phone and the style name displays on the idle screen.

Turning Off a Style

To turn off a style without activating another style:

- | | |
|----------|---|
| 1 | From the Styles Menu screen, press  to scroll to Off . |
| 2 | Press  under SELECT . |

Using the Styles Action Menu

When you highlight a style on the **Styles Menu**, you can then access the **Styles Action** menu for additional Styles functions.

To access the **Styles Action** menu, press  from the **Styles Menu**.

The **Styles Action** menu provides the following options:

- **View** — view settings of the highlighted style
- **Change** — activate the highlighted style
- **Edit** — edit the settings of the highlighted style
- **New** — create a new style
- **Delete** — delete the highlighted style
- **Delete All** — delete all styles

Setting Call Filtering

The Call Filter feature enables you to control which calls, messages, and alerts your phone responds to, and which it ignores.

From the **Call Filter** screen, you set separate filtering options for phone calls, Private Calls, alerts, and messages:

- **Phone** — sets filtering options for phone calls
- **Prvt** — sets filtering options for Private Calls
- **Alerts** — sets filtering options for Call Alerts
- **Notifications** — sets filtering options for messages

Setting Phone Call Filtering

Call Filter enables you to set your phone to respond to all calls, no calls, or only calls from some or all numbers in your Phonebook. Calls that are filtered out will be sent to Voice Mail unless you have modified your Call Forwarding settings.

- **Off** sets your phone to notify you of all calls.
- **All** sets your phone to ignore all calls.
- **All Phonebook** sets your phone to notify you only of calls from the numbers stored in your Phonebook.

- **Some Phonebook** sets your phone to notify you only of calls from numbers you select from your Phonebook. You may choose up to five Phonebook entries.

To choose Phonebook entries that you want your phone to respond to calls from:

1	From the Call Filter screen, press  to scroll to Phone .
2	Press  under CHANGE .
3	Press  to scroll to Some Phonebook .
4	Press  under SELECT . The entries stored in your Phonebook appear.
5	To select a Phonebook entry as one you want to your phone to respond to, press  to scroll to the Phonebook entry and press  under SELECT . A check mark appears next to each selected Phonebook entry. You may select up to five Phonebook entries.
6	To remove a selected Phonebook entry from the list, press  to scroll to the name and press  under SELECT .
7	When you have selected the Phonebook entries you want, press  under DONE .

Setting Private Call Filtering

Setting **Prvt** to **On** sets your phone to ignore all Private Calls. Setting **Prvt** to **Off** sets your phone to respond to all Private Calls.

Setting Alert Filtering

Setting **Alerts** to **On** sets your phone to ignore all Call Alerts. Setting **Alerts** to **Off** sets your phone to respond to all Call Alerts.

Setting Message Notification Filtering

Call Filter enables you to set your phone to notify you of certain types of messages, all types of messages, or no messages:

- **Off** allows your phone to notify you of all messages.

- **Voice Messages** allows your phone to notify you of Voice Mail messages.
- **Text Messages** allows your phone to notify you of Text Messages messages.
- **All** prevents your phone from notifying you of all messages.

Call Filter can prevent your phone from ringing or vibrating when you receive a message. Your display screen will still indicate that you have messages.

Shortcuts

The Shortcuts feature enables you to access most menu or submenu options in your phone by pressing a numeric button on the keypad for the shortcut. You create the shortcut to the menu by assigning a number to it and then accessing the menu by pressing the number. Some shortcuts may already be pre-programmed into your phone. You can have a total of up to 20 shortcuts.

Creating a Shortcut

- 1 Navigate to the menu item to which you want to create a shortcut. For example, if you wanted to create a shortcut to **Ring/Vibe**:

From the idle screen, press , then press  to scroll to **Settings**. Press  under SELECT. **Ring/Vibe** is now highlighted in the **Settings** screen.
- 2 Press and hold  for about 2 seconds.
- 3 A confirmation screen displays showing the name of the menu item to which you want to create a shortcut. To proceed with assigning the shortcut, press  under YES.
- 4 A screen displays showing the assigned shortcut number.

If you want to change the shortcut number:

Press  under CHANGE.

Press  under DELETE to erase the assigned number.

Enter the desired number on your keypad and press  under OK.
- 5 Press  under DONE.

Using a Shortcut

To use a shortcut to access a menu:

- | | |
|---|---|
| 1 | From the idle screen, press  . |
| 2 | Press the number assigned to the shortcut. You have 2 seconds to do this after pressing  . |

Or,

- | | |
|---|--|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to Shortcuts . |
| 3 | Press  under SELECT. |
| 4 | Press  to scroll to the shortcut you want to use. |
| 5 | Press  under GOTO. |

Using the Shortcut Menu

The Shortcut Menu enables you to manage your shortcuts with the following options:

- **New** — view instructions for assigning a shortcut
- **Edit** — edit a shortcut name and key number
- **Reorder** — assign existing shortcuts to a different key number
- **Delete** — delete any highlighted Shortcut
- **Delete All** — delete all stored Shortcuts

To access the **Shortcut** menu:

- | | |
|---|---|
| 1 | From the idle screen, press  . |
| 2 | Press  to scroll to Shortcuts . |
| 3 | Press  under SELECT. |

4 Press  to scroll to the desired shortcut.

5 Press  .

Accessories

A range of Boost Mobile and Motorola Accessories are available for purchase from many Boost Mobile Authorized Dealerships throughout the United States. To locate a dealer near you, visit boostmobile.com.

This section includes information on the following accessories:

Swivel Carry Clip	Page 135
Batteries	Page 137
Chargers	Page 138

Swivel Carry Clip

The Swivel Carry Clip provides a convenient means by which to carry your *i55sr* phone with you. It consists of the Phone Clip and the Belt Clip.

Using the Swivel Carry Clip

- 1 Attach the Phone Clip to the phone.

BOOST TIP: Start with the antenna side of the clip.

- 2 Slide the Belt Clip onto the Phone Clip until you hear it click.

- 3 Attach the Swivel Carry Clip (Phone Clip and Belt Clip) to your belt.

- 4 To release phone from belt clip, push the button on the top of the belt clip.

Removing the Swivel Carry Clip

- 1 Hold the phone securely in your left hand.

- 2 Curl the right hand index finger and place the outer edge of the finger against the knob of the Phone Clip.

- 3 Place the thumb of your right hand on the side of the phone, directly below the left side of the Phone Clip.

Batteries

- 4 Squeeze the right hand thumb and index finger together until the clip snaps out of the retaining slot on the left side
- 5 Remove the clip.

Batteries

For best results, charge the batteries within the temperature range of 10°C to 40°C (50°F to 104°F).

Prolonged charging is not recommended. For battery charging guidelines, see the “Battery Charging Times” in the table below.

Charging Lithium Ion Batteries

The following table provides the approximate time to fully charge a battery using a Motorola iDEN Approved Lithium Ion battery charger. Check the item number on your battery and charger to determine the appropriate charging time.

MOTOROLA BATTERIES		Charging Time to 100%		
Item Number	Description/ Chemistry	Rapid Travel Charger (SPN4716)	Mid-Rate Travel Charger (SPN4940)	Standard Travel Charger (SPN4808)
SNN5705	High Performance Li Ion	2 hours 30 minutes	5 hours	5 hours
SNN5716	Maximum Capacity Li Ion	3 hours	8 hours	8 hours

NOTE: Charging times are based on a fully discharged battery.

For optimal battery life, use a Motorola iDEN Approved Lithium Ion battery charger with your Motorola iDEN Lithium Ion battery. Other chargers may not fully charge your Lithium Ion battery.

Additional Battery Information and Instructions

IMPORTANT: Proper use of this product requires that the battery cover be in place during operation. Use of batteries other than those listed in the table on page 137 or use of the product without the battery cover in place violates the product warranty and may violate FCC specifications.

- Extreme temperatures will degrade battery performance. Do not store your battery where temperatures exceed 60°C (140°F) or fall below -20°C (4°F).
- Lithium Ion batteries have a self-discharge rate and without use, will lose about 1% of its charge per day.
- The battery capacity will be degraded if stored for long periods while fully charged. If long term storage is required, store at half capacity.
- The Motorola iDEN Approved Lithium Ion chargers will provide optimum performance. Other chargers may not fully charge your iDEN Lithium Ion battery or may yield reduced number of lifetime charge cycles.
- When batteries are not in use, always store them in the plastic safety tray.

Chargers

Using one of the Chargers listed below, you can charge a battery from an AC outlet. On one end of the Charger, an accessory connector attaches to the bottom of the phone. At the other (AC outlet) end of the device, there is a compact housing that contains the plug-in power supply.

CHARGERS	
Kit Number	Description
SPN4940	Mid-Rate Travel Charger
SPN4716	Rapid Travel Charger
SPN4808	Standard Travel Charger

NOTE: Additional adaptor plugs to accommodate various international power outlets can be purchased separately for the Mid-Rate and Rapid Travel Chargers.

Using the Charger

- 1 While holding the phone with its keypad facing up, insert the accessory connector into the bottom of the phone until you hear a click.
- 2 If you have either the Mid-Rate Charger or Rapid Travel Charger, flip open the prongs, and plug the travel charger transformer into an AC wall outlet.

Or,

If you have the Standard Charger, plug the charger transformer into an AC wall outlet.

Mid-Rate Travel Charger Operating Specifications

Input voltage range: 90-264 VAC @ 50/60 Hz.

Operating temperature range: 0°C to +50°C

Standard Travel Charger (U.S. Only)

Input voltage range: 90-120 VAC @ 60Hz.

Operating temperature range: 0°C to +50°C

Boost Customer Care

You can contact Boost Customer Care 7 days a week simply by dialing 611 from your *i55sr* phone, or by calling 1-888-BOOST-4U (1-888-266-7848). Our Boost Customer Care team will assist you in answering all your questions. Or, visit boostmobile.com for a variety of Boost Customer Care services online.

Before you contact Boost Customer Care for service or to resolve an issue, be sure to have your Boost Mobile Personal Telephone Number, your model number (located on your phone underneath the battery), and the ID number printed on your SIM card. You'll want to record these numbers, and keep them handy, so that you can replace the battery prior to contacting Boost Customer Care.

Understanding Status Messages

You may receive status messages under certain conditions. Before contacting Boost Customer Care, note the message, numeric code, and the conditions under which it appeared. The following table lists and describes the status messages.

Status Messages	Message Description
Number Not in Service	The number that you entered is not valid.
User Not Available	The phone that you called is either busy, out-of-coverage, or turned off. Please try again later.
User Not Authorized	The person that you called has not purchased this service.
Please Try Later	This service is temporarily not available. Please try again later.
User Busy in Private	The phone that you called is busy in a Private Call.
User Busy in Data	The phone that you called is busy using Boost Wireless Web services.
Service Restricted	This service was restricted by Boost Mobile, or this service was not purchased.
Service Not Available	This feature is not available on the current network.
System Busy Try Later	The system is experiencing heavy traffic. Please try again later.
Service Conflict	This service cannot be enabled because an incompatible service has already been turned on.
Please Try Again	An error occurred. Please try again.
Self Check Error	A fault was detected with your phone. If this error recurs, note the error code and contact Boost Customer Care.

Status Messages	Message Description
Self Check Fail	An operational fault was detected with your phone. Note the numeric code, turn your phone off, and contact Boost Customer Care.
PIN Blocked Call Your Provider	The incorrect PIN was entered three consecutive times. You will be unable to place or receive calls on your <i>i55sr</i> phone. Contact Boost Customer Care to have them obtain the PIN Unblocking Key (PUK) code.
Insert SIM	Your SIM Card is not being detected. Please check to ensure that you have inserted the SIM Card.
Check SIM Card	Please check your SIM Card to make sure it has been inserted properly.
Wrong PIN	You have entered an incorrect PIN number.
Wrong Code	Your phone will not accept a non-Boost Mobile SIM card.
Enter PIN	Please enter your 4- to 8- digit SIM Pin code.
Enter Unlock Code	Auto Phonelock is activated. Enter your unlock code.
New Browser Message Memory Full!	Warns of low memory for Net Alerts.

Boost Mobile Terms and Conditions of Prepaid Service

TERMS AND CONDITIONS OF PREPAID SERVICE: PLEASE READ THESE TERMS AND CONDITIONS CAREFULLY. THEY CONSTITUTE A BINDING AGREEMENT (the “Agreement”) BETWEEN YOU AND BOOST MOBILE.

You (“Customer”) accept the terms of this Agreement (a) by calling to activate BOOST MOBILESM wireless communications services (“Service”), (b) by purchasing BOOST MOBILE wireless communications equipment (the “Equipment”) or Service or replenishing your airtime through boostmobile.com, or (c) by signing this Agreement, whichever applies. By using the Equipment, you subscribe to the Service provided by Boost Mobile (sometimes “Company”). If you have not signed a printed copy of this Agreement and do not accept these terms, do not activate your phone; you may return your phone for a full refund, within 10 days of purchase, to the retail store where you purchased it. Should there be any conflict between the terms and conditions below, and the terms and conditions of any applicable Service/Subscriber Agreement between Customer and Company covering the Equipment accompanying the Activation Guide, the terms and conditions of the then-current applicable Service/Subscriber Agreement will control. The Service is provided to you through the Company as agent for, and using the Digital Mobile Network (the “System”) of, Nextel Communications, Inc. and its affiliates and subsidiaries (collectively, “Nextel”). All rights and protections afforded to the Company by this Agreement are also afforded to Nextel through Nextel’s principal-agent relationship with the Company.

1. **SERVICE ACTIVATION** - To activate the Service and the call credits in your BOOST MOBILE Activation Guide, you must call our free automated service number before the date shown. Remember that by calling this number to activate your service, you are agreeing to these Terms and Conditions of Prepaid Service. By activating the Service you also authorize Company to exchange with its related business entities, contractors or agents who may be involved in providing the Service, any customer information you may have provided to Company that is necessary for these related businesses, contractors, and entities to assist the Company in providing the Service. Company may suspend or cancel the Service at any time without notice if: (i) there are reasonable grounds to suspect the information provided by Customer to Boost Mobile or its agent for user registration or when you activated your Service, was incomplete or incorrect or if there has been fraud or misuse by you in relation to the Service; (ii) you breach any of the terms or conditions in this Agreement; or (iii) you do anything which in the Company’s opinion, may cause damage to the System. In addition, Service may be suspended, changed or terminated without notice.

2. **CALL CREDITS** – Your call credits are valid for the Call Credit Validity Period, *i.e.*, from the date of their activation, until the call credit expiration date. Refer to your rate plan table for details. You may purchase additional RE-BOOSTTM Cards at any time but you must activate them by calling the designated BOOST MOBILE Customer Care number before the expiration date of the RE-BOOST Card. If you don’t use your call credits or replenish your service within the Call Credit Validity Period, your call credits will expire and your mobile number will be withdrawn at the end of a 60-day Grace Period. There is a limit of \$300 in call credits that may be aggregated on your service at any time. RE-BOOST Cards can be used once only. Call credits are not transferable or redeemable for cash.

3. **SIM CARDS** – The BOOST MOBILE pre-paid SIM card remains the property of Boost Mobile at all times. Should your BOOST MOBILE pre-paid SIM card or RE-BOOST Card(s) be lost or stolen, Boost Mobile will be under no obligation to replace them or compensate you. If Boost Mobile does choose to replace your SIM card, you may be charged a replacement fee.

4. **USE OF SERVICE** – Customer agrees to comply with all statutes, rules and regulations applicable to Customer, including all applicable rules of the Federal Communications Commission (the “FCC”). Customer will not use the Service for any unlawful purpose. Customer will not use the Service in aircraft or in motor vehicles in violation of law, regulation or ordinance. Customer acknowledges and agrees that all future purchases of Company Services and Equipment by customer shall be governed by the terms and conditions contained herein unless Customer and Company enter into a subsequent Service/Subscriber Agreement. Company may change this Agreement at any time. Any changes are effective when Company provides Customer with written notice stating the effective date of the change(s). If Customer elects to use the Services or make any payment to Company on or after the effective date of the changes, Customer is deemed to have accepted the change(s). If Customer does not accept the changes, Customer may terminate Services as of the effective date of the changes.

5. **CUSTOMER MOBILE DIGITAL EQUIPMENT** – Customer must have a Company approved handset or device and must be a BOOST MOBILE Service customer to access the Service. Company is not responsible for the installation, operation, quality of transmission, or maintenance of the Equipment. Any change in Service or Equipment may require additional programming or Equipment or changes to assigned codes or numbers that may require programming fees. Company reserves the right to change or remove assigned codes and/or numbers when such change is reasonably necessary in the conduct of its business. Customer does not have any proprietary interest in such codes or numbers. Although Federal and state laws may make it illegal for third parties to listen in on service, complete privacy cannot be guaranteed. Company shall not be liable to Customer or to any third party for any eavesdropping on or interception of communications from Company’s System.

6. **RATES, CHARGES, AND PAYMENT** – You will be charged for your use of the Service in accordance with the terms of the BOOST MOBILE Rate Plan, as found in your BOOST MOBILE handset kit or online at www.boostmobile.com. You may request a copy of this document from Boost Mobile at any time. Customer agrees to pay Company, on a prepay basis, for charges by Company for the Service. Customer acknowledges that chargeable time for telephone calls and BOOST 2WAYSM call transmissions originated by a handset begins when a connection is established with Company facilities. A new BOOST 2WAY call is initiated by a call participant if that participant responds more than six (6) seconds after the other party finishes its BOOST MOBILE CONNECTSM transmission. Customer accepts responsibility for Airtime charges from incoming telephone calls to the handset from the time that Customer responds to the call. Service charges may apply to some service options when Customer calls the BOOST MOBILE Customer Service number 1-888-BOOST-4U (1-888-266-7848). If Customer disputes any Service charges, Customer must submit a written explanation within forty five (45) days from the date Company debits Customer’s account for the disputed Service. If Company determines that an error was made with respect to any disputed Service charges, Company shall credit Customer’s account in the amount of the error. If Customer does not pay the amount in dispute owed to Company, Company may exercise any remedies it may have under this Agreement for non-payment of Service charges. Company reserves

the right to modify any and all elements of the Service charges at any time by giving notice of such changes to Customer. If Customer continues to use the Service after the Company has provided such notice, Customer will be deemed to have accepted the changes, and such changes will be effective immediately upon Customer's use of the Service following notice of the changes, unless the Company's communication indicates a later effective date. If Customer does not accept the changes, Customer must immediately cease all use of the Service.

7. BOOST MOBILE WIRELESS WEB SERVICES – BOOST MOBILE Wireless Web Services, consisting of certain applications such as Internet, email, data and other wireless information services (the "Applications") are part of the Services that can be obtained through Company. Certain Applications offered through Company or authorized third parties may be compatible with the Equipment and/or the Service offered by Company. Customer acknowledges and agrees that there is no guarantee or assurance that the Applications are compatible, or will continue to be compatible, with Company's System or any of its Equipment or Service offerings. Such compatibility shall not be construed as an endorsement of a particular Application or a commitment on the part of Company that Application(s) will continue to be compatible with the System, Equipment or Service for any period of time. Company reserves the right, in its sole discretion, to disable or discontinue any Application for any reason. Use of BOOST MOBILE Wireless Web Services requires a wireless Internet compatible phone, and is subject to any storage, memory or other Equipment limitation. Only certain Internet sites may be accessed, and certain BOOST MOBILE Wireless Web Services may not be available in all Company Service areas.

8. APPLICATION CUSTOMER CARE AND SUPPORT – Customer acknowledges and agrees that in most cases, the developer of an Application is responsible for providing customer care and Application support to all Customers using the Application. In the event Customer contacts Company customer care with a problem concerning the use of an Application, Customer may be referred to the Application developer's customer care, and Company shall have no obligation to support such Application.

9. CONTENT; INTELLECTUAL PROPERTY RIGHTS – Company is not a publisher of the third party content that Customer may access from time to time through BOOST MOBILE Wireless Web Services; therefore, Company is not responsible for the content provided by such third parties, including but not limited to statements, opinions, graphics, photos, music, services and other information ("Content"), and accessed by Customer through Boost Wireless Web Services. Company gives no guarantee or assurance as to the currency, accuracy, completeness or utility of Content obtained through BOOST MOBILE Wireless Web Services. Company, Content providers and others have proprietary interests in certain Content. Customer shall not reproduce, broadcast, distribute, sell, publish, commercially exploit or otherwise disseminate such Content in any manner, or permit others to do so, without the prior written consent of Company, Content providers, or others with proprietary interests in such Content, as applicable.

10. RISK OF LOSS; INSURANCE – Upon Customer's acceptance of delivery of the Equipment, all risk of loss, damage, theft, or destruction to the Equipment shall be borne by the Customer. No such loss, damage, theft, or destruction of the Equipment, in whole or part, shall impair the obligations of Customer hereunder, including, without limitation, responsibility for the payment of Service Charges due hereunder.

11. TAXES, FEES, SURCHARGES & ASSESSMENTS – Customer is responsible for all federal, state, and local taxes, fees, surcharges, and other assessments (collectively, "Charges") that are imposed on telecommunications services, other services, and

equipment or that are measured by gross receipts from the sale of telecommunications services and/or equipment. Such Charges shall include, but are not limited to: excise taxes; sales and transaction taxes; utility taxes; regulatory fees and assessments; universal service assessments, telephone relay service (TRS) assessments; recoveries or similar charges. Customer shall be responsible for such Charges regardless of whether the Charge is imposed upon the sale of equipment or services, upon Customer, or upon Company. If any such Charge is determined to be applicable and has not been paid by Customer before Customer accepts delivery of equipment, Customer shall pay Company the full amount of any such Charge no later than ten (10) days after receipt of the invoice therefor.

12. **COVERAGE AREA** – Local Dispatch (BOOST 2WAY), cellular calling, BOOST MOBILE Wireless Web Services, and respective coverage areas for these Services are subject to change at any time at the sole discretion of Company.

13. **DEFAULT / TERMINATION** - If you breach any representation to Company or fail to perform any of the promises you made in this Agreement, you will be in default and Company may, without notice to you, suspend Service and/or terminate this Agreement, in addition to all other remedies available to us. You agree to pay all costs including reasonable attorneys fees, collection fees, and court costs Company may incur in enforcing this Agreement through any appeals.

14. **LIMITATION AND CONDITION OF LIABILITY; INDEMNITY** - Company does not assume and shall have no liability for (i) failure to deliver the Equipment within a specified time period; (ii) unavailability or delays in delivery of the Equipment or the Services; (iii) damage due directly or indirectly to causes beyond the control of Company, including, but not limited to acts of God, acts of the public enemy, acts of the government, acts or failure to act of the Customer, its agents, employees or subcontractors, fires, floods, epidemics, quarantine restrictions, corrosive substances in the air or other hazardous environmental conditions, strikes, freight embargoes, inability to obtain materials or services, commotion, war, unusually severe weather conditions or default of Company's subcontractors whether or not due to any such causes; or (iv) the use of BOOST MOBILE Wireless Web Services, including but not limited to the accuracy or utility of any information acquired from the Internet through BOOST MOBILE Wireless Web Services; or Internet Services, Content or Applications whether or not supported by Company. Without limiting the foregoing, the Company's sole liability for Service disruption, whether caused by the negligence of the Company or otherwise, is limited to a credit allowance not exceeding an amount equal to the proportionate charge to the Customer for the period of Service disruption. EXCEPT AS OTHERWISE SET FORTH IN THE PRECEDING SENTENCE, IN NO EVENT WILL THE COMPANY BE LIABLE FOR ACTUAL, CONSEQUENTIAL, INCIDENTAL, SPECIAL OR OTHER INDIRECT DAMAGES ARISING OUT OF THE SERVICES, WHETHER CAUSED BY ITS NEGLIGENCE OR OTHERWISE, NOR FOR ECONOMIC LOSS, PERSONAL INJURIES OR PROPERTY DAMAGES SUSTAINED BY THE CUSTOMER OR ANY THIRD PARTIES ARISING OUT OF THE SERVICES. UNDER NO CIRCUMSTANCES WILL NEXTEL, IN CONJUNCTION WITH WHICH THE COMPANY PROVIDES THE SERVICES, BE LIABLE TO CUSTOMER FOR ANY DAMAGES, OF ANY KIND WHATSOEVER, REGARDLESS OF THE FORM OF ACTION OR CAUSE OF ACTION, ARISING OUT OF THE SERVICES. CUSTOMER IRREVOCABLY WAIVES ANY CLAIM YOU MIGHT OTHERWISE HAVE AGAINST NEXTEL ARISING OUT OF THE SERVICES AND COVENANTS NOT TO MAKE OR BRING ANY CLAIM OF ANY KIND AGAINST NEXTEL ARISING OUT OF THE SERVICES. Customer agrees to indemnify, defend, and hold Company and Nextel harmless from any Customer violations of FCC rules and regulations or

Customer violation of any statutes, ordinances or laws of any local, state, or federal public authority. The terms of this Section 14 will survive any termination or expiration of this Agreement

15. RESOLUTION OF DISPUTES - PLEASE READ THIS SECTION CAREFULLY. IT AFFECTS RIGHTS THAT YOU MAY OTHERWISE HAVE. IT PROVIDES FOR RESOLUTION OF MOST DISPUTES THROUGH ARBITRATION INSTEAD OF COURT TRIALS AND CLASS ACTIONS. ARBITRATION IS FINAL AND BINDING AND SUBJECT TO ONLY VERY LIMITED REVIEW BY A COURT. THIS ARBITRATION CLAUSE SHALL SURVIVE TERMINATION OR EXPIRATION OF THIS AGREEMENT.

A. ARBITRATION PROCEDURES. YOU MUST FIRST PRESENT ANY CLAIM OR DISPUTE TO US BY CONTACTING BOOST MOBILE CUSTOMER CARE, IN WRITING, TO ALLOW US THE OPPURTUNITY TO RESOLVE THE DISPUTE. You may invoke arbitration if your claim or dispute is not resolved within 60 days after we receive your detailed written description of the dispute or claim and the circumstances giving rise to it. The arbitration of any dispute or claim shall be conducted in accordance with the Wireless Industry Arbitration rules ("WIA Rules") of the American Arbitration Association ("AAA"), as modified by this Agreement. You and we agree that this Agreement evidences a transaction in interstate commerce and the arbitration will be interpreted and enforced in accordance with the WIA Rules and the laws of the Commonwealth of Virginia. The arbitration will be conducted at a location in Reston, Virginia, to be designated by the Company.

B. COST OF ARBITRATION. All administrative fees and expenses of an Arbitration will be divided equally between you and Company. In all arbitrations, each party will bear the expense of its own counsel, experts, witnesses and preparation and presentation of evidence at the arbitration.

C. WAIVER OF PUNITIVE DAMAGE CLAIMS AND CLASS ACTION. By this Agreement, both Customer and Company are waiving certain rights to litigate disputes in court. If for any reason the arbitration clause is deemed inapplicable or invalid, Customer and Company both waive, to the fullest extent allowed by law, any right we might otherwise have to recover punitive or exemplary damages and any right to pursue any claims on a class or consolidated basis or in a representative capacity.

16. COMPLETE AGREEMENT/SEVERABILITY/WAIVER – This Agreement sets forth all of the agreements between the parties concerning the Services and purchase of the Equipment, and there are no oral or written agreements between them other than as set forth in this Agreement. No amendment or addition to this Agreement shall be binding upon this Company unless it is in writing and signed by both parties (and, in the case of the Company, by an officer of the Company). Should any provision of this Agreement be found illegal or in contravention of the law, such provision shall be considered null and void but the remainder of this Agreement shall not be affected thereby. The failure of Company, at any time to require the performance by Customer of the provisions of this Agreement shall not affect in any way the right to require such performances at any later time, nor shall the waiver by Company of a breach of any provision hereof be taken or held to be a waiver of compliance with or breach of any other provision or a continuing waiver of such provision.

17. **ASSIGNMENT/RESALE/GOVERNING LAW** – This Agreement may be freely assigned by Company to any successor of it or any other firm or entity capable of performing its obligations hereunder, and upon any such assignment, Company shall be released from all obligations to Customer. Customer may not assign this Agreement, or resell the services that are subject to this Agreement without prior written consent of Company. Subject to the restrictions contained herein, this Agreement shall bind and inure to the benefit of the successors and permitted assigns of the parties hereto. The laws of the Commonwealth of Virginia, without application of its conflicts of laws principles, shall govern this Agreement.

18. **NOTICE REGARDING USE OF SERVICE FOR 911 OR OTHER EMERGENCY CALLS** – The Service provided hereunder does not interact with 911 and other emergency services in the same manner as landline telephone service. Depending on the circumstances of a particular call, the Service provided hereunder may not be able to identify your location to emergency services and you may not always be connected to the appropriate emergency services provider. Additionally, the provision of 911 or other emergency services may be conditioned on payment of amounts to the governmental authorities who implement or coordinate access to such services, and Customer agrees that Company may apportion and pass through such amounts to Customer, which shall be paid by Customer when due, in connection with Customer's access to such 911 or other emergency services, where available. **CUSTOMER AGREES TO HOLD COMPANY AND NEXTEL HARMLESS AGAINST ANY AND ALL CLAIMS, DEMANDS, ACTIONS, OR CAUSES OF ACTION (INCLUDING ALL ACTIONS BY THIRD PARTIES) ARISING OUT OF THE USE OR ATTEMPTED USE OF THE COMPANY'S SERVICE TO ACCESS 911 OR OTHER EMERGENCY SERVICES.**

19. **NO WARRANTY (SERVICE)** – NEITHER COMPANY NOR NEXTEL MAKES ANY WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE TO CUSTOMER IN CONNECTION WITH ITS USE OF THE SERVICE. IN NO EVENT SHALL COMPANY OR NEXTEL BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL OR OTHER INDIRECT DAMAGES TO THE FULL EXTENT THE SAME MAY BE DISCLAIMED BY LAW. CUSTOMER ACKNOWLEDGES THAT SERVICE INTERRUPTIONS WILL OCCUR FROM TIME TO TIME, AND AGREES TO HOLD COMPANY AND NEXTEL HARMLESS FOR ALL SUCH INTERRUPTIONS.

20. **NO WARRANTY (EQUIPMENT)** – NEITHER COMPANY NOR NEXTEL MAKES ANY WARRANTIES OR REPRESENTATIONS OF ANY KIND, STATUTORY, EXPRESS OR IMPLIED, TO CUSTOMER OR TO ANY OTHER PURCHASER OF THIS EQUIPMENT. WITHOUT LIMITING THE FOREGOING, NEITHER COMPANY NOR NEXTEL MAKES ANY EXPRESS OR IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. CUSTOMER HEREBY WAIVES, AS AGAINST COMPANY AND NEXTEL ALL OTHER WARRANTIES, GUARANTEES, CONDITIONS, OR LIABILITIES, EXPRESS OR IMPLIED, ARISING BY LAW OR OTHERWISE. IN NO EVENT SHALL COMPANY, OR NEXTEL BE LIABLE FOR CONSEQUENTIAL, SPECIAL, OR INCIDENTAL DAMAGES, WHETHER OR NOT OCCASIONED BY THEIR NEGLIGENCE AND INCLUDING, WITHOUT LIMITATION, LIABILITY FOR ANY LOSS OR DAMAGE RESULTING FROM THE INTERRUPTION OR FAILURE IN THE OPERATION OF ANY EQUIPMENT SOLD OR OTHERWISE PROVIDED HEREUNDER. THERE ARE NO WARRANTIES THAT EXTEND BEYOND THE DESCRIPTION CONTAINED HEREIN. CUSTOMER ASSUMES

THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE EQUIPMENT. UNLESS OTHERWISE AGREED BY COMPANY, IF THE EQUIPMENT PROVES DEFECTIVE, THE COSTS OF ALL NECESSARY SERVICING AND REPAIR WILL BE BORNE BY CUSTOMER.

21. DEFINITIONS – For purposes of this Agreement: 1) “Call Credit Validity Period” means the number of days, from the date of call credit activation until the date of call credit expiration, set out in the relevant rate plan; 2) “RE-BOOST Card” means the Boost Mobile card containing additional call credits which may be purchased from participating outlets or the voucher number and expiration date provided to customers when additional call credits are purchased without a card being provided, as applicable; 3) “Grace Period” means the 60 day period commencing on the date of Call Credit expiration, and ending on the date of account cancellation.

Safety and General Information

IMPORTANT INFORMATION ON SAFE AND EFFICIENT OPERATION.

READ THIS INFORMATION BEFORE USING YOUR INTEGRATED MULTI-SERVICE PORTABLE RADIO.

RF Operational Characteristics

Your radio product contains a radio frequency transmitter to convey the information you wish to send as well as occasional automatic signals used to sustain connection to the wireless network, and a receiver which enables you to receive communication and connection information from the network.

PORTABLE RADIO PRODUCT OPERATION AND EME EXPOSURE

Your Motorola two-way radio complies with the following RF energy exposure standards and guidelines:

- United States Federal Communications Commission, Code of Federal Regulations; 47 CFR part 2 sub-part J
- American National Standards Institute (ANSI) / Institute of Electrical and Electronics Engineers (IEEE). C95. 1-1992
- Institute of Electrical and Electronics Engineers (IEEE). C95. 1-1999 Edition
- International Commission on Non-Ionizing Radiation Protection (ICNIRP) 1998
- Ministry of Health (Canada). Safety Code 6. Limits of Human Exposure to Radiofrequency Electromagnetic Fields in the Frequency Range from 3 kHz to 300 GHz, 1999
- Australian Communications Authority Radio communications (Electromagnetic Radiation - Human Exposure) Standard 2001
- ANATEL, Brasil Regulatory Authority, Resolution 256 (April 11, 2001) "additional requirements for SMR, cellular and PCS product certification"

To assure optimal radio product performance and make sure human exposure to radio frequency electromagnetic energy is within the guidelines set forth in the above standards, always adhere to the following procedures:

Phone Operation

When placing or receiving a phone call, hold your radio product as you would a wireline telephone. **Speak directly into the microphone.**

Two-way radio operation

When using your radio product as a traditional two-way radio, **hold the radio product in a vertical position with the microphone one to two inches (2.5 to 5 cm) away from the lips.**

Body-worn operation

To maintain compliance with FCC RF exposure guidelines, if you wear a radio product on your body when transmitting, always place the radio product in a **Motorola approved clip, holder, holster, case or body harness for this product.** Use of non-Motorola-approved accessories may exceed FCC RF exposure guidelines. **If you do not use a Motorola approved body-worn accessory and are not using the radio product in the intended use positions along side the head in the phone mode or in front of the face in the two-way radio mode, then ensure the antenna and the radio product are kept the following minimum distances from the body when transmitting:**

- **Phone or Two-way radio mode: one inch (2.5 cm)**
- **Data operation using any data feature with or without an accessory cable: one inch (2.5 cm)**

Antenna Care

Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could damage the radio product and may violate FCC regulations.

DO NOT hold the antenna when the radio product is “IN USE”. Holding the antenna affects call quality and may cause the radio product to operate at a higher power level than needed.

Approved Accessories

For a list of approved Motorola accessories call 1-800-453-0920 / visit our website at www.mot.com/iden / look in the accessory section of this manual.

ALL MODELS WITH FCC ID AZ489FT5815 MEET THE GOVERNMENT'S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES.

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radiofrequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/kg.* Tests for SAR are conducted using standard operating positions reviewed by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

Before a phone model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this model phone when tested for use at the ear is 1.24 W/kg and when tested on the body, as described in this user guide, is 0.267 W/kg during voice transmission using Phone Mode and 0.50 W/kg during packet data transmission. (Body-worn measurements differ among phone models, depending upon available accessories and FCC requirements.) While there may be differences between the SAR levels of various phones and at various positions, they all meet the government requirement for safe exposure.

The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model phone is on file with the FCC and can be found under the Display Grant section of <http://www.fcc.gov/oe/fccid> after searching on FCC ID AZ489FT5815.

Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications Industry Association (CTIA) web-site at <http://www.wow-com.com>.

* In the United States and Canada, the SAR limit for mobile phones used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements.

Electro Magnetic Interference/Compatibility

NOTE: Nearly every electronic device is susceptible to electromagnetic interference (EMI) if inadequately shielded, designed or otherwise configured for electromagnetic compatibility.

Facilities

To avoid electromagnetic interference and/or compatibility conflicts, turn off your radio product in any facility where posted notices instruct you to do so. Hospitals or health care facilities may be using equipment that is sensitive to external RF energy.

Aircraft

When instructed to do so, turn off your radio product when on board an aircraft. Any use of a radio product must be in accordance with applicable regulations per airline crew instructions.

Medical Devices

Pacemakers

The Advanced Medical Technology Association (AdvaMed) recommends that a minimum separation of 6 inches (15 cm) be maintained between a handheld wireless radio product and a pacemaker. These recommendations are consistent with those of the U.S. Food and Drug Administration.

Persons with pacemakers should:

- ALWAYS keep the radio product more than 6 inches (15 cm) from their pacemaker when the radio product is turned ON.
- Not carry the radio product in a breast pocket.
- Use the ear opposite the pacemaker to minimize the potential for interference.
- Turn the radio product OFF immediately if you have any reason to suspect that interference is taking place.

Hearing Aids

Some digital wireless radio products may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer to discuss alternatives.

Other Medical Devices

If you use any other personal medical device, consult the manufacturer of your device to determine if it is adequately shielded from RF energy. Your physician may be able to assist you in obtaining this information.

Use While Driving

Check the laws and regulations on the use of radio products in the area where you drive. Always obey them.

When using the radio product while driving, please:

- Give full attention to driving and to the road.
- Use hands-free operation, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.

WARNING Operational Warnings

For Vehicles with an Air Bag

Do not place a portable radio product in the area over the air bag or in the air bag deployment area. Air bags inflate with great force. If a portable radio is placed in the air bag deployment area and the air bag inflates, the radio product may be propelled with great force and cause serious injury to occupants of the vehicle.

Potentially Explosive Atmospheres

Turn off your radio product prior to entering any area with a potentially explosive atmosphere, unless it is a radio product type especially qualified for use in such areas as “Intrinsically Safe” (for example, Factory Mutual, CSA, or UL approved). Do not remove, install, or charge batteries in such areas. Sparks in a potentially explosive atmosphere can cause an explosion or fire resulting in bodily injury or even death.

NOTE: The areas with potentially explosive atmospheres referred to above include fueling areas such as below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles, such as grain, dust or metal powders, and any other area where you would normally be advised to turn off your vehicle engine. Areas with potentially explosive atmospheres are often but not always posted.

Blasting Caps and Areas

To avoid possible interference with blasting operations, turn off your radio product when you are near electrical blasting caps, in a blasting area, or in areas posted: “Turn off two-way radio”. Obey all signs and instructions.

**Caution**

Operational Cautions

Antennas

Do not use any portable radio product that has a damaged antenna. If a damaged antenna comes into contact with your skin, a minor burn can result.

Batteries

All batteries can cause property damage and/or bodily injury, such as burns if a conductive material such as jewelry, keys, or beaded chains touches exposed terminals. The conductive material may complete an electrical circuit (short circuit) and become quite hot. Exercise care in handling any charged battery, particularly when placing it inside a pocket, purse, or other container with metal objects.

Cleaning and Drying Considerations

Using a leather carry case may help protect the surfaces and help prevent liquids (e.g., rain) from entering into the interior of the radio product. This product is not water proof, and exposing the unit to liquids may result in permanent damage to the unit.

If your radio product interior gets wet, then do not try to accelerate drying with the use of an oven or a dryer as this will damage the radio product and void the warranty. Instead, do the following:

1. Immediately power off the radio product.
2. Remove Battery and SIM card (if so equipped) from radio product.
3. Shake excess liquid from radio product.
4. Place the radio product and battery in an area that is at room temperature and has good air flow.
5. Let the radio product, battery dry, and SIM card for 72 hours before reconnecting the battery and/or powering on the radio product.

If the radio product does not work after following the steps listed above, contact your dealer for servicing information.

Clean the external surfaces of the radio product with a damp cloth, using a mild solution of dishwashing detergent and water. Some household cleaners may contain chemicals that could seriously damage the radio product. Avoid the use of any petroleum-based solvent cleaners. Also, avoid applying liquids directly on the radio product.

Accessory Safety Information

IMPORTANT:

SAVE THESE ACCESSORY SAFETY INSTRUCTIONS

- Before using any battery or battery charger, read all the instructions for and cautionary markings on (1) the battery, (2) the battery charger, which may include a separate wall-mounted power supply or transformer, and (3) the radio product using the battery.
- Do not expose any battery charger to water, rain, or snow as they are designed for indoor or in-vehicle use only.

To reduce the risk of injury, charge only the rechargeable batteries listed in the Accessories section of this manual. Other types of batteries may burst, causing personal injury and damage.

- To reduce the risk of damage to the cord or plug, pull by the plug rather than the cord when you disconnect the battery charger from the power source outlet.
- Do not operate any battery charger with a damaged cord or plug — replace them immediately.
- Battery chargers may become warm during operation, but not hot. If it becomes hot to the touch, unplug it from the power outlet immediately and discontinue its use.
- Use of a non-recommended attachment to a battery charger may result in a risk of fire, electric shock, or injury to persons.
- Make sure the battery charger power cord is located so that it will not be stepped on, tripped over, or subjected to damage or stress.
- An extension cord should not be used with any battery charger unless absolutely necessary. Use of an improper extension cord could result in a risk of fire and electric shock. If an extension cord must be used, make sure that:
 - The pins on the plug of the extension cord are the same number, size, and shape as those on the plug of the charger.
 - The extension cord is properly wired and in good electrical condition.
 - The cord size is 18AWG for lengths up to 100 feet and 16AWG for lengths up to 150 feet.
- Do not operate any battery charger if it has received a sharp blow, has been dropped, or has been damaged in any way; take it to a qualified service technician.

- Do not disassemble a battery charger; take it to a qualified service technician when service or repair is required. Incorrect reassembly may result in a risk of electric shock or fire.
- Maximum ambient temperature around the power supply or transformer of any battery charger should not exceed 40°C (104°F).
- The output power from the power supply or transformer must not exceed the rating given on the Desktop Dual-Pocket Charger.
- The disconnection from the line voltage is made by unplugging the power supply from the AC receptacle.
- To reduce risk of electric shock, unplug any battery charger from the outlet before attempting any maintenance or cleaning.

For optimum charging performance, turn off the radio product while charging it in any battery charger.

Limited Warranty Motorola Communication Products

NOTE :

This Warranty applies within the fifty (50) united states and the District of Columbia

I. WHAT THIS WARRANTY COVERS AND FOR HOW LONG:

MOTOROLA, INC. ("MOTOROLA") warrants the MOTOROLA manufactured iDEN Communication Products listed below ("Product") against defects in material and workmanship under normal use and service for a period of time from the date of purchase as scheduled below:

iDEN Subscriber Digital Mobile and Portable Units	One (1) Year
Product Accessories	One (1) Year
Batteries	One (1) Year

Rechargeable Batteries will be replaced during the applicable warranty period if:

- the battery capacity falls below 80% of rated capacity, or
- the battery develops leakage.

MOTOROLA, at its option, will at no charge either repair the Product (with new or reconditioned parts), replace it (with a new or reconditioned Product), or refund the purchase price of the Product during the warranty period provided it is returned in accordance with the terms of this warranty. Replaced parts or boards are warranted for the balance of the original applicable warranty period. All replaced parts of Product shall become the property of MOTOROLA.

This express limited warranty is extended by MOTOROLA to the original end user purchaser only and is not assignable or transferable to any other party. This is the complete warranty for the Product manufactured by MOTOROLA. MOTOROLA assumes no obligations or liability for additions or modifications to this warranty unless made in writing and signed by an officer of MOTOROLA. Unless made in a separate agreement between MOTOROLA and the original end user purchaser, MOTOROLA does not warrant the installation, maintenance or service of the Product.

MOTOROLA cannot be responsible in any way for any ancillary equipment not furnished by MOTOROLA which is attached to or used in connection with the Product, or for operation of the Product with any ancillary equipment, and all such equipment if expressly excluded from this warranty. Because each system which may use the Product is unique, MOTOROLA disclaims liability for range, coverage, or operation of the system as a whole under this warranty.

II. GENERAL PROVISIONS:

This warranty sets forth the full extent of MOTOROLA'S responsibilities regarding the Product, Repair, replacement or refund of the purchase price, at MOTOROLA'S options, is the exclusive remedy. THIS WARRANTY IS GIVEN IN LIEU OF ALL OTHER EXPRESS WARRANTIES. IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL MOTOROLA BE LIABLE FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT, FOR ANY LOSS OF USE, LOSS OF TIME, INCONVENIENCE, COMMERCIAL LOSS, LOST PROFITS OR SAVINGS OR OTHER INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE SUCH PRODUCT, TO THE FULL EXTENT SUCH MAY BE DISCLAIMED BY LAW.

III. STATE LAW RIGHTS:

SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR LIMITATION ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY.

This warranty gives specific legal rights, and there may be other rights which may vary from state to state.

IV. HOW TO GET WARRANTY SERVICE:

You must provide proof of purchase (bearing the date of purchase and Product item serial number) in order to receive warranty service and, also, deliver or send the Product item, transportation and insurance prepaid, to an authorized warranty service location. Warranty service will be provided by MOTOROLA through one of its authorized warranty service locations. If you first contact the company which sold you the Product (e.g., dealer or communication service provider), it can facilitate your obtaining warranty service. You can also call MOTOROLA at 1-800-453-0920 for warranty service location information.

V. WHAT THIS WARRANTY DOES NOT COVER:

- a. Defects or damage resulting from use of the Product in other than its normal and customary manner.
- b. Defects or damage from misuse, accident, water, or neglect.
- c. Defects or damage from improper testing, operation, maintenance, installation, alteration, modification, or adjustment.
- d. Breakage or damage to antennas unless caused directly by defects in material workmanship.
- e. A Product subjected to unauthorized Product modifications, disassemblies or repairs (including, without limitation, the addition to the Product of non-MOTOROLA supplied equipment) which adversely affect performance of the

- Product or interfere with MOTOROLA'S normal warranty inspection and testing of the Product to verify any warranty claim.
- f. Product which has had the serial number removed or made illegible.
 - g. Rechargeable batteries if:
 - 1. Any of the seals on the battery enclosure of cells are broken or show evidence of tampering.
 - 2. The damage or defect is caused by charging or using the battery in equipment or service other than the Product for which it is specified.
 - h. Freight costs to the repair depot.
 - i. A Product which, due to illegal or unauthorized alteration of the software/firmware in the Product, does not function in accordance with MOTOROLA'S published specifications or the FCC type acceptance labeling in effect for the Product at the time the Product was initially distributed from MOTOROLA.
 - j. Scratches or other cosmetic damage to Product surfaces that does not effect the operation of the Product.
 - k. Normal and customary wear and tear.

VI. PATENT AND SOFTWARE PROVISIONS:

MOTOROLA will defend, at its own expense, any suit brought against the end user purchaser to the extent that it is based on a claim that the Product or parts infringe a United States patent, and Motorola will pay those costs and damages finally awarded against the end user purchaser in any such suit which are attributable to any such claim, but such defense and payments are conditioned on the following:

- a. That MOTOROLA will be notified promptly in writing by such purchaser of any notice of such claim;
- b. That MOTOROLA will have sole control of the defense of such suit and all negotiations for its settlement or compromise; and
- c. Should the Product or parts become, or in MOTOROLA'S opinion be likely to become, the subject of a claim of infringement of a United States patent, that such purchaser will permit MOTOROLA, at its option and expense, either to procure for such purchaser the right to continue using the Product or parts or to replace or modify the same so that it becomes non-infringing or to grant such purchaser a credit for the Product or parts as depreciated and accept its return. The depreciation will be an equal amount per year over the lifetime of the Product or parts as established by MOTOROLA.

MOTOROLA will have no liability with respect to any claim of patent infringement which is based upon the combination of the Product or parts furnished hereunder with software, apparatus or devices not furnished by MOTOROLA, nor will MOTOROLA have any liability for the use of ancillary equipment or software not furnished by MOTOROLA which is attached to or used in connection with the Product or any parts thereof.

Laws in the United States and other countries preserve for MOTOROLA certain exclusive rights for copyrighted MOTOROLA software, such as the exclusive rights to reproduce in copies and distribute copies of such MOTOROLA software. MOTOROLA software may be used in only the Product in which the software was originally embodied and such software in such Product may not be replaced, copied, distributed, modified in any way, or

used to produce any derivative thereof. No other use including, without limitation, alteration, modification, reproduction, distribution, or reverse engineering of such MOTOROLA software or exercise or rights in such MOTOROLA software is permitted. No license is granted by implication, estoppel or otherwise under MOTOROLA patent rights or copyrights.

Limited Warranty Motorola Communication Products (International)

NOTE :

This Warranty applies in Singapore and the Philippines.

I. WHAT THIS WARRANTY COVERS AND FOR HOW LONG:

MOTOROLA warrants the MOTOROLA manufactured iDEN Communication Products listed below ("Product") against defects in material and workmanship under normal use and service for a period of time from the date of purchase as scheduled below:

iDEN Subscriber Digital Mobile and Portable Units	One (1) Year
Product Accessories (manufactured by or under license from MOTOROLA)	One (1) Year
Batteries	One (1) Year

Rechargeable Batteries will be replaced during the applicable warranty period if:

- the battery capacity falls below 80% of rated capacity, or
- the battery develops leakage.

MOTOROLA, at its option, will at no charge either repair the Product (with new or reconditioned parts), replace it (with a new or reconditioned Product), or refund the purchase price of the Product during the warranty period provided it is returned in accordance with the terms of this warranty. Replaced parts or boards are warranted for the balance of the original applicable warranty period. All replaced parts of Product shall become the property of MOTOROLA.

This express limited warranty is extended by MOTOROLA to the original end user purchaser only and is not assignable or transferable to any other party. This is the complete warranty for the Product manufactured by MOTOROLA. MOTOROLA assumes no obligations or liability for additions or modifications to this warranty unless made in writing and signed by an officer of MOTOROLA. Unless made in a separate agreement between MOTOROLA and the original end user purchaser, MOTOROLA does not warrant the installation, maintenance or service of the Product.

MOTOROLA cannot be responsible in any way for any ancillary equipment not furnished by MOTOROLA which is attached to or used in connection with the Product, or for operation of the Product with any ancillary equipment, and all such equipment if expressly excluded from this warranty. Because each system which may use the Product is unique,

MOTOROLA disclaims liability for range, coverage, or operation of the system as a whole under this warranty.

II. GENERAL PROVISIONS:

This warranty sets forth the full extent of MOTOROLA'S responsibilities regarding the Product, Repair, replacement or refund of the purchase price, at MOTOROLA'S options, is the exclusive remedy. THIS WARRANTY IS GIVEN IN LIEU OF ALL OTHER EXPRESS WARRANTIES. IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY TO THE FULL EXTENT SUCH MAY BE DISCLAIMED BY LAW. IN NO EVENT SHALL MOTOROLA BE LIABLE FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT, FOR ANY LOSS OF USE, LOSS OF TIME, INCONVENIENCE, COMMERCIAL LOSS, LOST PROFITS OR SAVINGS OR OTHER INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE SUCH PRODUCT, TO THE FULL EXTENT SUCH MAY BE DISCLAIMED BY LAW.

III. HOW TO GET WARRANTY SERVICE:

You must provide proof of purchase (bearing the date of purchase and Product item serial number) in order to receive warranty service and, also, deliver or send the Product item, transportation and insurance prepaid, to an authorized warranty service location. Warranty service will be provided by MOTOROLA through one of its authorized warranty service locations. If you first contact the company which sold you the Product (e.g., dealer or communication service provider), it can facilitate your obtaining warranty service.

IV. WHAT THIS WARRANTY DOES NOT COVER:

- a. Defects or damage resulting from use of the Product in other than its normal and customary manner.
- b. Defects or damage from misuse, accident, water, or neglect.
- c. Defects or damage from improper testing, operation, maintenance, installation, alteration, modification, or adjustment.
- d. Breakage or damage to antennas unless caused directly by defects in material workmanship.
- e. A Product subjected to unauthorized Product modifications, disassemblies or repairs (including, without limitation, the audition to the Product of non-MOTOROLA supplied equipment).
- f. Product which has had the serial number removed or made illegible.
- g. Rechargeable batteries if:
 1. Any of the seals on the battery enclosure of cells are broken or show evidence of tampering.
 2. The damage or defect is caused by charging or using the battery in equipment or service other than the Product for which it is

specified.

- c. Freight costs to the repair depot.
- d. A Product which, due to illegal or unauthorized alteration of the software/firmware in the Product, does not function in accordance with MOTOROLA'S published specifications or the local type acceptance labeling in effect for the Product at the time the Product was initially distributed from MOTOROLA.
- e. Scratches or other cosmetic damage to Product surfaces that does not effect the operation of the Product.
- f. Normal and customary wear and tear.
- g. Exclusion for defects or damage arising from use of the products in connection with non-MOTOROLA equipment.

VIII. PATENT AND SOFTWARE PROVISIONS:

MOTOROLA will defend, at its own expense, any suit brought against the end user purchaser to the extent that it is based on a claim that the Product or parts infringe a patent, and Motorola will pay those costs and damages finally awarded against the end user purchaser in any such suit which are attributable to any such claim, but such defense and payments are conditioned on the following:

- a. That MOTOROLA will be notified promptly in writing by such purchaser of any notice of such claim;
- b. That MOTOROLA will have sole control of the defense of such suit and all negotiations for its settlement or compromise; and
- c. Should the Product or parts become, or in MOTOROLA'S opinion be likely to become, the subject of a claim of infringement of a patent, that such purchaser will permit MOTOROLA, at its option and expense, either to procure for such purchaser the right to continue using the Product or parts or to replace or modify the same so that it becomes non-infringing or to grant such purchaser a credit for the Product or parts as depreciated and accept its return. The depreciation will be an equal amount per year over the lifetime of the Product or parts as established by MOTOROLA.

MOTOROLA will have no liability with respect to any claim of patent infringement which is based upon the combination of the Product or parts furnished hereunder with software, apparatus or devices not furnished by MOTOROLA, nor will MOTOROLA have any liability for the use of ancillary equipment or software not furnished by MOTOROLA which is attached to or sued in connection with the Product or any parts thereof. In no event shall MOTOROLA be liable for any incidental, special or consequential damages arising from any claim of patent infringement or alleged infringement.

Laws in the United States and other countries preserve for MOTOROLA certain exclusive rights for copyrighted MOTOROLA software, such as the exclusive rights to reproduce in copies and distribute copies of such MOTOROLA software. MOTOROLA software may be used in only the Product in which the software was originally embodied and such software in such Product may not be replaced, copied, distributed, modified in any way, or used to produce any derivative thereof. No other use including, without limitation, alteration, modification, reproduction, distribution, or reverse engineering of such MOTOROLA software or exercise of rights in such MOTOROLA software is permitted. No license is granted by implication, estoppel or otherwise under MOTOROLA patent rights or copyrights.
